|   | <p>through the Draft Core Strategy.<br/>The site at Lower Bristol Road is widely acknowledged as a successful site and the residents are fully integrated into the local community so progressing that site will bring rapid benefits to all concerned.<br/>Removal of the 3 identified sites makes sense at this stage because of the additional evidence now available.</p>  |
| <p><b>Other options considered</b></p>  | <p><b>Halt work on the Site Allocations DPD and instead seek to include allocations within the Placemaking Plan</b><br/>The Council is in dialogue with neighbouring authorities on the potential capacity for identification of sites within their areas. The Council is also considering pitch allocations within wider housing growth allocations, as informed by the review of the key development sites as part of the extra work on the Core Strategy, which will inform the development of the Site Allocations DPD.</p> <p><b>Not to update the GTAA</b><br/>This has significant associated risks due to the requirement in national policy to maintain an up-to-date understanding of need. The Council is commissioning an update to the GTAA.</p> <p><b>Not to assess additional sites</b><br/>This option has been discounted as it would prejudice the wider assessment of opportunities of land outside the Green Belt.</p> <p><b>Press on to the Draft Plan with the existing list of identified sites</b><br/>This option has been discounted due to the need to reassess the 6 existing sites more clearly against national planning policy criteria and to consider new sites alongside the review of the SHLAA and Core Strategy.</p> <p><b>Expand the scope of the DPD to include boats/barges</b><br/>Given the different nature of their needs and the fact that both the legislation and the planning requirements relating to Gypsies &amp; Travellers are distinct, the focus of the DPD on Gypsies &amp; Travellers will be retained. The Council will need to consider how to address the needs of boats/barges through another mechanism.</p> |
