

Cranwell House - Weston Park East
FORMAL CONSULTATION

WPE/FC

Name	Date	Comments	Opinion		Councils Response	Valid Objection?
			For	Against		
M L	16/01/14	No comment, wants 'As Built' plan on completion.			No Comments.	N/A
Police	17/01/14	Restrictions formed part of the planning consent, and enforcement will be down to B&NES.	✓		No Comments.	N/A
Fire Brigade	21/01/14	No issues.	✓		No Comments.	N/A
Cllr M L	28/01/14	Is it correct that the existing temporary restrictions are the same as the proposed permanent ones.			This is correct.	N/A
K O B	29/01/14	Currently parks outside property, but restrictions further down bring other cars up to those spaces. Asked if they could be made residents' only spaces.		✓	Unlikely to be able to go with the 'residents parking only' request, but will look into other options.	Yes
J K	29/01/14	Current layout causes cars to speed up, and also gives bad visibility for residents leaving their driveways. Suggests limited parking on the road, and larger vehicles being banned altogether.		✓	Unlikely to be able to go with the 'residents parking only' request, but will look into other options.	Yes
Cllr C B	02/02/14	The proposal should go a long way to help ease the concerns of the residents.	✓		No Comments.	N/A
Cllr M L	04/02/14	Removing parked cars for the TTRO has increased the speed of cars using the lane. Parking area outside of 'Archers Leigh' is also requested for the resident of 'Netherwood'		✓	Information passed to the engineer for consideration. There is no problem with reducing restrictions if necessary.	Yes
Royal High School	05/02/14	Generally very pleased with the outcome of the new layout, but need the DYL below the southern entrance to be installed to aid visibility. Also suggest that the lines opposite Weston Park Court could be shortened and still give the same benefit.	✓	✓	The points raised have been passed onto the engineer in charge.	N/A
D H (letter)	05/02/14	Very much in favour of the new layout, as it helps residents to use their drives safely. Has asked a question why the single yellow is missing from outside the entrance to the school.	✓		The line is missing due to a vehicle blocking access to the lining team, but will be installed when possible.	No
Police	06/02/14	Thinks the zig-zags are not long enough on the exit, and the restrictions are not enforced by the Council wardens. If the zig-zags were entered, this would solve the issue.		✓	The points raised have been passed onto the engineer in charge.	Yes
