Efficiency Savings								
Community Support Services	Reduce cost of Community Support services through: Re-defining requirements - new specification with focus on maximising independence and reduce longer-term dependency on funded care. Utilise Prime Provider/DPS arrangement to achieve contracting efficiencies.	75	25	100	M	0	None	Improved outcomes for service users as they are able to access services that are focused on maximising their independence and not building unnecessary dependency.
Day Care	Reduce the cost of day care services through: redefining requirements - new specification with focus on maximising independence and reducing longer-term dependency on funded care and moving away from more traditional model of day care for people with an LD that have been day-centre based, standard activities. Also, revise approach to transport provision to reflect this new approach.	75	0	75	M	0	May impact the long term future use of two Council-owned day-centres	Improved outcomes for service users as they are able to access services that are focused on maximising their independence and not building unnecessary dependency. Potential change in access arrangements for some people with an LD in relation to the changes in the service model with a shift away from the current, traditional day-centre model.
Provider Relationship	Strengthen the focus of providers on maximising independence by focusing on individual's strengths, interests, abilities and networks improving outcomes and reducing longer term dependency. Support with a gain share model with community services providers to incentivise them to deliver outcomes and reduce package costs.	125	0	125	M	0	None	Improved outcomes for service users able to access services focused on maximising independence. Greater visibility of the available options for service users and carers, giving them greater choice and control. Services can be co-ordinated around the needs and wishes of the individual.
Residential and nursing re-commission	Reduce the cost of care home placements through: a) Refinement of eligibility criteria and active promotion of community based alternatives that focus on maximising independence; b) Ensuring consistency and equity in care home fees by implementing a new commissioning and contracting model informed by Fair Price of Care exercise undertaken in 2016/17; & c) Design and implementation of a brokerage service.	75	25	100	M	0	None	The assessed level of need is aligned with the cost of meeting that need avoiding "over-prescription" and increased dependency. Improved consistency and equity between service user groups. Improved cost control supported by efficient payment processes achieves better value for money.

Assistive Technology	Increase the use of assistive technology to reduce overall package costs and reduce demand longer term for residential care a) Package cost reduction of existing service users b) Demand management - reduce future demand for more expensive care through early identification of service users who will benefit from assistive technology c) Income generation - charge service users without eligibility for Council provided care	50	0	50	M	0	None	Improved outcomes for service users able to access services focused on maximising independence. Greater visibility of the available options for service users and carers, giving them greater choice and control. Services can be co-ordinated around the needs and wishes of individuals. Some service users may be charged for their service, if not eligible for Council care.
Re-ablement	Maximise impact of reablement service promoting independence, avoiding unnecessary admission to residential and nursing care/hospital and supporting timely discharge from hospital. Streamline pathways into reablement to improve access, reduce waiting times and prevent a delay in individuals receiving a service. Improve service user outcomes and reduce dependency on long term packages of care.	125	0	125	M	0	None	Service users are supported to maximise their independence and packages do not build unnecessary dependency on funded services resulting in improved outcomes. The assessed level of need is aligned with the cost of meeting that need avoiding "over-prescription" and increased dependency. Improved access to reablement service and avoidance of delays. Some service users receiving reablement for longer than 6 weeks whilst waiting for an ongoing package of care may be charged for their care.
Front Door Review	Redesign social care access as part of an integrated 'front door' to place greater emphasis on: a) providing information, advice and guidance; b) enabling people to access alternative preventative and self-care focused services including those provided by voluntary sector organisations; and c) ensuring that individuals who do need statutory social care services are able to access them without delay.	188	0	188	M	0	None	Service users are supported to maximise their independence and packages do not build unnecessary dependency on funded services resulting in improved outcomes. The assessed level of need is aligned with the cost of meeting that need avoiding "over-prescription" and increased dependency. Improved access to statutory health and care services and avoidance of delays in individuals receiving a service. Greater visibility of the available options for service users and carers, giving them greater choice and control. Service users are enabled to help themselves.

Incremental Package Costs	Analysis of package data indicates that in 2015/16 there were a significant number of incremental package increases. A proportion of these increases will have been appropriate to respond to an increase in need. However, existing controls and governance can be strengthened to reduce the volume, value and duration of incremental increases.	50	0	50	M	0	None	• Reduced prevalence of incremental package increases, realising a cashable benefit • Improved outcomes for service users by ensuring they receive the right level of care at the right time and dependency is not built unnecessarily • Wider strategic objectives are supported by actively promoting and encouraging alternative ways to meet an identified need that does not necessarily rely on funded social care support, for example, assistive technology • Decision makers are held to account which can result in a greater level of ownership for operational decisions to contribute to wider practice changes • Greater visibility of incremental increases will inform practice change and market development work, by better understanding local drivers for package increases and being better equipped to respond to the reasons for those.
Support Planning and Brokerage	Transform the approach and delivery structure of support planning and brokerage. This will involve implementing an asset based approach and separating the assessment from support planning and brokerage functions to improve operational efficiency, provide the framework for more innovative support plans and increase consistency to realise cashable and non-cashable benefits.	50	0	50	M	0	None	Service users are supported to maximise their independence and packages do not build unnecessary dependency on funded services resulting in improved outcomes. The assessed level of need is aligned with the cost of meeting that need avoiding "over-prescription" and increased dependency. Improved access to statutory health and care services and avoidance of delays in individuals receiving a service. Greater visibility of the available options for service users and carers, giving them greater choice and control. Service users are enabled to help themselves.
Review/restructure of Disabled Care Team (Adults & Children's)	The Children's Disability team is currently an in-house team whilst the Adults' team is externalised. An opportunity exists to merge the function through service restructuring.	50	0	50	H	Not known at this stage	None	There is the potential for further join up of adult and children's services provision to deliver benefits in relation of an all-age service and improvement of transition arrangements. This does need to be considered in the context of current mixed delivery models, plans for further integration, and the appointment of Virgin Care as the Prime Provider of community health and social care services. In the first instance, the model of C&YP provision is being reviewed.

Home Care Compliance	Develop the approach to home care commissioning to strengthen the focus on outcomes and maximising independence. Redesign the commissioning and contracting model to achieve efficiency, stimulate the market and incentivise providers to maximise independence. Streamline business processes to gain efficiencies from payment processes and cost controls.	50	0	50	M	0	None	Service users are supported to maximise their independence and packages do not build unnecessary dependency on funded services resulting in improved outcomes. The assessed level of need is aligned with the cost of meeting that need avoiding "over-prescription" and increased dependency. Improved cost control supported by efficient payment processes achieves better value for money.
Public Health further savings	Savings in 17/18 will be made against health improvement programmes including from the DPH award (non-pay), NHS health checks and other lifestyle programmes not included in the Your Care, Your Way envelope. Savings in 18/19 will involve reduction in support to CCG health protection, internal intelligence posts, training budgets and possibly other changes to budgets for staff or commissioned services based on the Your Care, Your Way process.	50	0	50	L	0	None	This will have a small impact on a range of preventive services carried out in schools and in the community but no service will be lost entirely and direct client-facing services will be maintained and efficiency maximised through service remodelling in the Your Care, Your Way process

Purchased Care –Across Client Groups	Accelerate existing transformation - Expedite existing savings plans and service transformation activities to realise benefits quickly through:- Process efficiencies including • Review all social care packages to determine whether there is additional potential to reduce costs; • Review income collection processes and approach to increase income collection rate and reduce bad debts • Strengthen the monitoring and approval process of changes in package costs Review service delivery approach including: • Exploring the possibility of in-house care provision in response to challenging market conditions. • Review in and out of area placements – reduce the restrictions on where individuals receive their care package, • Care in the community v care in residential and nursing settings	920	1271	2191	H	0	None	Some initiatives are expected to improve service user experience and access to services whilst also achieving savings. For example, testing the "three conversations" approach to assessing need and support planning, which is being implemented by some other local authorities and is aimed at helping people lead independent lives. There may, in some instances, be a reduction in the range/type of services offered and the level of choice given to individuals, including the type of service put in place to meet their assessed/eligible need.

Growth Avoidance

Adult Social Care Demographic Growth - Older People over 65	Fair Price of Care and modelling of alternative fee structures for care home placements has informed development of new commissioning and contracting approaches. However, this is in the context of increasing pressures arising from demographic change. Also in the context of market conditions, which are a significant constraint when negotiating and agreeing new contractual arrangements and fee structures and ensuring that the Council's statutory obligations are met. Very close links with the mobilisation, transition and transformation of community services (your care, your way), the establishment of the Prime Provider/Dynamic Purchasing System arrangements and the agreement of risk and gain share.	333	333	666	H	0	None	A strengthened focus on maximising independence by focusing on individuals' strengths, interests, abilities and networks is designed to improve outcomes for service users and reduce longer term dependency. Potential reduced access to their preferred care setting for some service users and carers as the Council balances the views, preferences and wishes of the individual with ensuring that the assessed level of need is aligned with the cost of meeting that need, avoiding "over prescription" and building increased dependency.

Efficiency Savings								
Increase the level of "In-house" Foster-Placements	Increase level of in-house foster placements through a combination of enabling in house carers to take more complex cases and/or increasing volumes of in house carers through increased recruitment	50	0	50	M	0	None	Initial review of new recruitment approaches (particularly through improving and increasing our social media presence) have resulted in an overall increase in expressions of interest in fostering and those which progress to assessment of carers. An increased number of in-house foster-placements may require additional capacity within the team to support the foster carers, but should still enable a net saving as shown
Children's safeguarding court proceedings	Reducing the numbers of those coming to court and then into care through preventative measures and changing the use of experts during the process e.g. a) reduction in cost of barristers a mediation approach to early prevention b) Early help preventative measures c) Review social worker use	100	0	100	H	0	None	The numbers of cases that have required the Local Authority to initiate Court proceedings in relation to young children has risen over the past two years, reflecting a national trend. Any changes to the decision making process will need to be made with consideration to evidence of an incremental and increased demand for legal intervention, but securing professional input in a more cost-effective way and increasing preventative measures can only have a positive impact.
Skills and Employment Funding Model	Reduction in level of funding from People & Communities to Place for Skills & Employment team, which will become self-funding through its work with employers. Consolidation of ad hoc internal savings used to fund this team, by deleting a post within People & Communities.	60	0	60	L	1	None	Minimal impact anticipated, providing focus on care leavers and other vulnerable young people is not lost as a result of new funding model
Preventative Commissioning	Explore opportunities for further integration of commissioned services, creating more joined up approaches and creating some back-office efficiencies	12	0	12	M	0	None	Improved outcomes for families, by integrating services that are coordinated around their needs and preventing escalation into specialist social care services.

SIAS /School Improvement & Achievement	Requirement for service will significantly reduce as Academisation increases. Also option to absorb admin roles within a corporate team / shared service.	0	50	50	M	1	None	Capacity reduced to minimum statutory duty of monitoring school standards from Academic year 2019/20 (assumes few if any maintained schools will remain). Explore opportunities to share residual services with another Authority
Administration	Potential removal of 3 FTE admin posts.	90	0	90	L	3	None	The Service will work hard to minimise any impacts on front line capacity. The introduction of Business support "Pods" (as proposed by the Business Support Review) will seek to spread admin support to teams in a more flexible way and allow staff to move between teams according to demand.
Service management consolidation (Preventative and Inclusion services)	Removal of 3 FTE roles by combining responsibilities with other management posts or reducing to statutory minimum service.	76	77	153	M	3	None	The loss of these posts will mean that the tasks currently undertaken by the managers would need to be reduced and/or passed to other colleagues. The additional tasks and priorities would need to be managed alongside existing service demands. This is made possible by other changes in service delivery such as cessation of traded Parent Support Advisers, redesign of youth Connect and remodelling of children's Centre Services, already underway.
Capital and Organisation	With the reduction in workload associated with the growth in academies, reduce the team which manages the allocation of resources to capital priorities - maintaining a minimum statutory function linking to sufficiency of school places.	0	40	40	L	1	None	Limited impact as responsibility for capital maintenance and delivery of some capital expansion schemes will transfer to academies
Education psychology services	Increase income from trading marginal capacity to fully recover costs and support service resilience	33	0	33	M	0	None	The need to generate additional income will require the team to work differently, and may require some re-structuring of priorities to ensure staff can promote and market their services to schools and obtain new contracts to work in new schools.

Annex 2 - 2018/19 to 2019/20 Budget Savings & Income Generation Proposals

Short Breaks for Disabled Children	Expenditure relates to commissioned services that provide access to short breaks for children and their families with eligible social care needs. The services were last procured in 2013 and are now due for re-provision. This presents an opportunity to market test and re-negotiate contracts and rates without a substantial impact on service levels.	0	18	18	H	0	None	There may be an increase in waiting times for short breaks. Short break provision is a vital service that aims to support families to be able to care for their disabled children at home in the community. The provision provides respite for the parents and carers of children and young people with disabilities/SEND, and a short-break for the young person. Short break provision helps prevent family breakdown and enables children and young people to remain at home. Provision will continue to be closely monitored to ensure that the realisation of the saving does not adversely impact on the quality and safety of the service or on outcomes for vulnerable children and families.
Early Years	Consolidation of business support roles, including admin, data monitoring, EHCP & Ofsted reports.	16	0	16	M	0.4	None	This proposal will require the team to reduce the scope of its current work to only cover statutory requirements.
Immediately Addressable Spend	25% of immediately addressable spend	43	0	43	L	0	None	Some services may be less accessible if travel is restricted. Loss of funding for professional subscriptions may impact recruitment and retention. The proposals will require careful budget management and over-sight to ensure that spend is carefully targeted and monitored.

Children's Centres buildings management	Reduce cost of Children's Centres through 'asset transfer' of centres or finding a way to ensure services are delivered by others through existing buildings	75	0	75	M	0	Potential asset transfer	The current service will continue to run. The transfer of some Children's Centre buildings to community ownership could benefit local organisations through more effective use of the buildings as well as reduce unnecessary overheads for the Council. Already well advanced in exploring this option for the 'spoke' centres (not hubs).

Annex 2 - 2018/19 to 2019/20 Budget Savings & Income Generation Proposals

Savings Title	How to be achieved	18/19 Saving £000	19/20 Saving £000	2 year Savings Total	Risk to delivery of saving (H/M/L)	Impacts on staff - (incl no of posts deleted)	Impacts on property / assets etc	Impacts to service delivery
Review savings available from Youth Connect Service	Options are being reviewed to enable alternative delivery arrangements for services creating potential partnerships with local communities thus enabling local community groups to develop the additional capacity in key areas that will offer supplementary services for young people	200	300	500	H	7-10	Potential asset transfer	This proposal seeks to maintain the Council's commitment to delivering its statutory requirements, whilst also encouraging and enabling local community groups to develop the additional capacity in key areas that will offer supplementary services for young people. Any reduction in the size and remit of the Council-run service may impact on service delivery and our early help offer. The aim of the review will be to minimise any negative impact on outcomes for young people.
Children's Services Collaboration with other LA	Combine smaller services with other local authorities to achieve efficiencies e.g. YOT, educational functions, admissions, school psychologists, school improvement service etc. a) Combining small services b) Removal of non-essential services	25	0	25	M	1	None	Minimal impact expected as this is about combining delivery with another LA. This could assist in making these smaller services more robust as well as providing efficiencies.
Early Years nursery provision	To review all of the existing Council owned and run nurseries and explore the option of assisting other organisations to take on the running and management of nurseries to ensure there are sufficient places available.	50	0	50	M	Some fixed term posts already terminated	None	There is now provision of sufficient alternative nursery places in some areas. The private sector has been able to absorb the movement of children to independent nursery providers from Council-run nurseries in some locations. The Council will explore the option of assisting other organisations to take on the running and management of nurseries to ensure that sufficient places remain available across communities
Remodel Education Support & School Services	Scale down offer to meet remaining statutory requirements only, transferring responsibility to schools where appropriate.	250	0	250	M	Up to 5	None	This re-modelling follows national policy initiatives which have resulted in academisation of schools and the transfer of functions to schools, academies the Regional Schools Commissioner; Teaching Schools, Trust Boards of Multi Academy Trusts (MAT).Proposed to scale back existing teams to minimum consistent with statutory duties linked to expected number of maintained schools

Early Years Foundation Stage Team	Increase target for traded income to support ongoing service delivery and provide statutory minimum for early years. Reduce staffing hours.	74	0	74	L	0.8	None	May be some reduction in capacity to provide support to the Early Years sector.
Music Service	Explore options to combine back office support for the services across other local authorities (conversations already underway) and/or ensure charges to schools and parents enable full cost recovery to remove Council subsidy	0	40	40	H	0	None	The Music Service, through its grant from Arts Council, is responsible for providing support to low income families. Need to ensure that this is not jeopardised by any changes in service delivery or charging.
Education Welfare Services	Statutory service supporting children not attending school. Reduce service delivery and provide statutory minimum by focusing on prosecutions only.	40	0	40	M	1	None	This proposal will require the team to reduce the scope of its current work to only cover statutory requirements.
People & Communities Communications	Reduce staffing to a minimum level to meet statutory requirement to provide information around SEN provision.	40	0	40	M	1	None	Reduced quality of information for public in relation to early help offer
Safeguarding outcomes	Reduction of agency costs for staff delivering the CSE work by taking on more fixed term contract staff to continue to meet demand.	7	0	7	M	0	None	The proposals will require careful budget management and over-sight to ensure that spend is carefully targeted and monitored and key skills retained or developed.
