

Strategic Indicator Report - Summary

Full Report

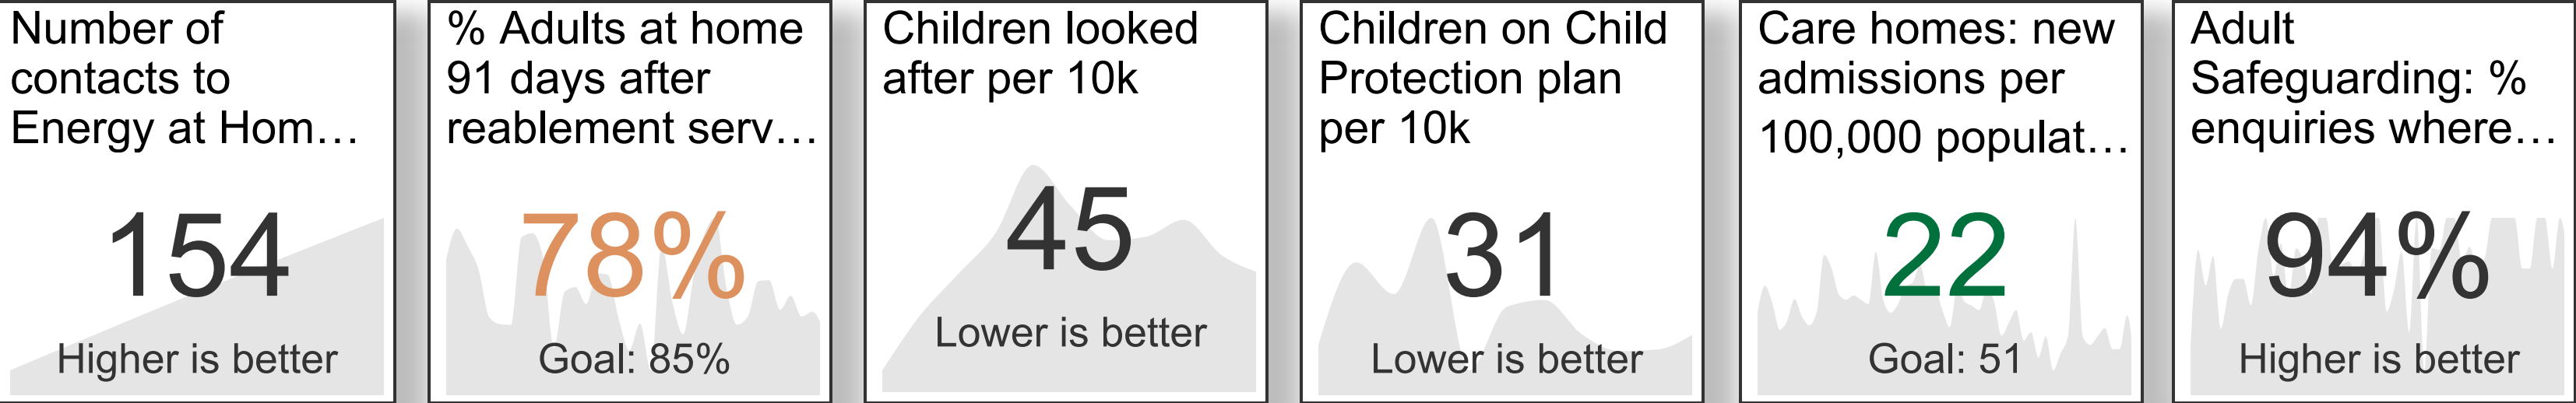

Preparing for the Future *Click on an indicator to see more*

Delivering for Residents *Click on an indicator to see more*

Focussing on Prevention *Click on an indicator to see more*

Preparing for the future

Our area is changing. We must change with it and help local residents prepare for the future. We want to promote high-quality, high-skill jobs, for example, in the new green jobs sector and in new technologies. At Bath Quays, we are creating a vibrant commercial quarter in the heart of the city which is delivering new jobs and homes. We also have a programme aimed at making our high streets more attractive places to visit, including greener ways of getting around the area and support to businesses.

We will work with partners, organisations such as the West of England Combined Authority, and local communities, to secure long-term investment in our local infrastructure. Our priorities for this are sustainable transport, homes and energy. So that they can take advantage of these changes, we want to help our young people acquire and enhance the skills they need to achieve their ambitions. To do this we will also need to address inequalities of outcome in education, particularly in the early years.

We also need to make the most of new technology, and be smarter and more flexible in the ways that we work. We need to be clearer about what we can and cannot provide. Increasingly, we will ask residents to self-serve for our more transactional services, so that we can better support people who need our help the most.

Key Stage 4 Average Attainment for all pupils			
Annual	<div><div></div></div>	49 %	Narrative: Narrative not currently available
0 %		09/07/2020	

Mental Health: Adult service users in employment			
Monthly	<div><div></div></div>	10 %	Narrative: Employment is a significant factor in improving people's mental health and this indicator demonstrates our support in this area
0 %		30/06/2021	

Delivering for residents

Access to housing, and getting around our area are key local concerns. We are determined to secure more affordable and social housing, improve the quality of rented housing, make our housing stock green and tackle fuel poverty.

We will also facilitate significant improvement of the transport infrastructure and encourage behaviour change to forms of transport other than the private vehicle. This will enable a major shift to walking, micro mobility (cycling), car-sharing, buses, and rail.

Alongside the introduction of the Clean Air Zone, we have wider ambitions for a more pedestrian-friendly city centre and reducing the impact of cars in residential streets through better traffic management, and reductions in ‘rat-running’.

To support this, we need to understand the views and needs of our local communities. We are committed to improving how we involve local people in our decision making, such as on local transport schemes, ensuring that they have a greater say in how their services are designed, funded and run.

% of household waste recycled/composted

Quarterly

59 %

27/05/2021

Narrative: This indicator, when considered alongside the amount of waste produced per household demonstrates success in moving towards our zero waste ambition.

EPC Score A-C for B&NES residential

Annual

32 %

30/06/2021

Narrative: Shows the % of properties with a satisfactory energy efficiency rating. Trend shows a positive direction of travel.

% residents satisfied with the council

Annual

64 %

31/12/2020

Narrative: The latest figures now show a return to the high rate of satisfaction seen in previous years, following a temporary fall in the rate in 2018

Delivering for residents

Adult social care reviews - % people with a review

Narrative: We have a statutory responsibility to ensure that people's needs are being met by at least an annual review

Housing Delivery Targets - Net new homes

Narrative: B&NES has exceeded its annual housing delivery requirementg of 648 news homes per annum for the last 6 years.

Number of fly tips reported

Narrative: Reports come from fix my street and from operational staff within the Council. This is the number reported - not necessarily the number we attend.

Focusing on Prevention

Having a clear approach to prevention is essential to improving people's health and wellbeing, sustaining the social care and health services we all value and rely on, and strengthening our local economy. For example, properly insulated homes are cheaper to run and help prevent cold-related ill health as well as contributing to addressing the climate emergency. Bath's Clean Air Zone is also a good example of how we are preventing ill health through reducing air pollution.

People should receive the support they need in the most efficient, effective and timely way, reducing demand for later and more costly interventions. Everyone has a part to play and our residents should be supported to stay healthy, live well and be independent for as long as possible, making good choices for their own health and wellbeing. For example, we can promote active travel, such as walking and cycling.

We cannot do this alone and we will need to build on our joint working arrangements with partners, voluntary organisations, parishes, and residents, through growing initiatives such as Compassionate Communities, which was exemplified in the creation of the Compassionate Communities Hub. We will always ensure that we continue to protect and support our most vulnerable residents.

Number of contacts to Energy at Home Info Centre

Quarterly

154

30/06/2021

Narrative: New in-house service providing information & signposting for residents. Looking to promote service more widely through comms channels.

% Adults at home 91 days after reablement service

Quarterly

78 %

31/03/2021

Narrative: This evidences that reablement supports people to maximise their independence and remain at home

Adult Social Care: Care Home admissions per 100k

Monthly

22

31/07/2021

Narrative: We would want to reduce the number of people in a care home setting to demonstrate we are supporting people to maximise their independence

Children looked after per 10k

Daily/Live

45

30/06/2021

Narrative: Rates are consistent for past 4 years. A rise in Special Guardianship Orders is in line with our aims in the Safeguarding Outcomes Service review.

Children on Child Protection plan per 10k

Daily/Live

31

30/06/2021

Narrative: Rates are low compared to similar authorities. Attributed to good management of risk and in line with our practice framework principles and values.

Adult Safeguarding: % enquiries where risk removed/reduced

Quarterly

94 %

30/06/2021

Narrative: We would want to see that risk is removed to demonstrate good safeguarding practice that minimises harm and risk
