

Address by Mr A B Hooper as Bath resident and Recreation Ground Charity Beneficiary to the BANES Council "Trust Board" Sub Committee meeting at the Guildhall, Bath on 9th April 2008

Never has charitable benefit intended for a whole City been so grossly or so deviously perverted by so-called "Trustees" to favour selected private gain, as has been so defiantly carried out by B&NES Council in breach of the law and blatant contempt of the High Court, and as you are still persisting with over the mis-use and abuse of our City Centre Recreation Ground.

You defile the word "Trustee" with your never ending perverted and cunning schemes to ever expand the evil facilitation of unlawful mis-use and abuse of our Charity's assets for the commercial domination and exploitation of one Trustee favoured Plc.

This cannot go on, you must be stopped and you will be stopped, sooner or later.

The "Report" and leases relative to so-called "temporary" stands referred to in Agenda items 9 and 10 suggesting any future use by Bath Rugby Plc beyond May '08 must be made public today, and beneficiaries given a minimum of three months to obtain legal advice on these matters before any action is taken.

If you continue to deny the request to have all inappropriate mis-use and private business exploitation removed and continue to proceed in breach of Trust Law and in contempt of the High Court relative to the Rec's proper use as "Open Space" amenity intended for all Bath citizens, you and Bath Rugby will do so at your peril of having any such devious and inappropriate leases and collusion overturned by the Courts, regarding which you have repeatedly been put on notice..

Please enter this statement into the permanent records of today's meeting.
