

Statement by **MRS B P FEROL** to Members of the Bath Recreation Ground Trust Board at their meeting on Wednesday, 14th April 2010, at The Guildhall

At every meeting of this 'three Councillor sub Committee' representing the Corporate Trustees we are strictly limited on time and treated as an irritation rather than our participation being respected as the legal beneficiaries we are.

Whilst you arrogantly waffle on and afterwards issue confusing minutes of these farcical meetings using such misleading legal jargon as "CY-PRES", which has no relevance or validity to be cunningly used to indulge and extend the Trustees' continuing breaches of trust and denial of the Charity's lawful purpose, the truth is that the substitution of any other objectives that will better suit the dubious ambitions for secret gain by the Trustees and their associates to wrongfully obtain greater control of the Sports Centre and its enormous Car Parking income streams to the detriment of the long term financial and logistical future of the Rec Charity as Public "Open Space" is wrong and is, therefore, totally opposed by beneficiaries.

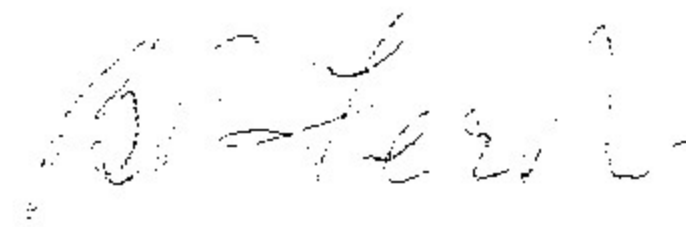

The main purpose of my attendance here today is, therefore, to put on record that we will not be hoodwinked by any such cunning Schemes and will oppose them for as long as it takes to bring remedies to the Charity's mis-use and abuse and secure the intended environmental benefits for the citizens of Bath, their children and their grandchildren as should be.

May I in closing ask you to reflect on the words of the famous Lincoln Speech of the 8th September 1850, which seems more relevant to the situation today than it did 160 years ago where "the people are better educated and politicians more devious".

Your conduct degrades the office you hold and your time at the Charity's expense should be put to better purpose in resolving the far more relevant concerns, such as

“lack of financial transparency”,
“conflicts of interest”
“unlawful and life threatening traffic
abuse of the Open Space”
“breaches of trust”
“maladministration and abuse of
power” etc., etc.

rather than trying to mis-use a legal loophole to achieve your dubious objectives which has no justification whatsoever in the true circumstances that exist.

B. P. Ferol
