This is a standing agenda item (Constitution rule 14, part 4D – Executive Procedure Rules) for matters referred by Policy Development and Scrutiny bodies. The Chair of the relevant PDS Panel will have the right to attend and to introduce the Panel's recommendations to Cabinet.

11. BATH'S CLEAN AIR PLAN- OUTLINE BUSINESS CASE (Pages 23 - 164)

Poor air quality is the largest known environmental risk to public health in the UK. Investing in cleaner air and doing more to tackle air pollution are priorities for the EU and UK governments, as well as for Bath and North East Somerset Council (B&NES). B&NES has monitored and endeavoured to address air quality in Bath, and the wider B&NES area, since 2002. Despite this, Bath has ongoing exceedances of the legal limits for Nitrogen Dioxide (NO₂) and these are predicted to continue until 2025 without intervention.

This report provides an update on the actions undertaken following the Cabinet meeting in December 2018 and sets out the decisions required to submit the final Outline Business Case (OBC) to Central Government containing the preferred final Clean Air Plan (CAP) to discharge the requirements within the Ministerial Direction served on the Council in July 2017.

A draft OBC was subject to public consultation on 16 October 2018 for a period of six weeks based on the preferred option of a charging Class D Clean Air Zone (CAZ) charging all vehicles. Since then work has been undertaken to process the outcome of the consultation and prepare a revised, final OBC for the delivery of the CAP. The revised OBC further assesses the shortlist of options set out in the Strategic Outline Business Case (SOC), and proposes a revised package of measures, including a revised class of CAZ which will still bring about compliance in the shortest time possible in Bath. The final OBC also includes further details about how the scheme will be implemented and the revised funding bid to central government to ensure successful implementation of the CAP.

The consideration of options for a CAZ, comprises three main elements:

- The charging mechanism (class of zone);
- The boundary of the zone; and
- The details of the bid to be submitted to government to implement the zone, along with mitigation measures for those households and businesses that are expected to be disproportionately impacted by the scheme.

All of the above should be considered in light of:

- the public consultation outcomes and the further technical and financial modelling done;
- having due regard to the council's legal obligations in respect of air quality (AQ), public consultation, equalities and the Ministerial Direction; and
- the risks associated with each option.

12. CONSULTATION, COMMUNICATIONS AND COMMUNITY ENGAGEMENT (Pages 165 - 176)

This report updates the Cabinet on work undertaken with members of our Connecting

Communities Forums on Consultation, Community Engagement and Communications. The report sets out the learning from recent consultation processes, ideas for building on good practice and suggested new approaches. The report also sets out the outcome of a detailed engagement process on this work so far and proposes next steps.

The Committee Administrator for this meeting is Jack Latkovic who can be contacted on 01225 394452.
