E3253 Addressing air quality and traffic management issues through the management of parking behaviour on the highway (WL)

Cabinet Member for Transport Services

Author/Contact: Andrew Dunn

Free to Decide: Not before 20th Feb 2021

Outline proposals which are intended to improve air quality by ensuring nitrogen dioxide (NO₂) targets are met in the shortest possible time through a major shift to mass transport, walking and cycling in order to secure the safer movement of pedestrian traffic on the highway by reducing the public health risks posed to them by air pollution. This will facilitate the achievement of strategic outcomes of local transport policy by reducing congestion and vehicle intrusion into neighbourhoods, and particularly residential neighbourhoods. Whilst the measures proposed are designed to improve air quality and meet traffic management and pedestrian safety purposes it is also anticipated they will also significantly reduce the level of emissions that drive climate change.

PROPOSED DECISIONS OF CABINET MEMBERS ON MATTERS WITHIN THEIR PORTFOLIO PUBLISHED UNDER URGENCY RULE 15 OF THE COUNCIL'S CONSTITUTION

These issues have not previously been published in a Forward Plan and are being brought forward under Urgency Rule 15 of the Council's Constitution. The decision will be taken on or after the date shown, following a 5-working-day public consultation period. The report sent to the decision maker is attached. The decision, once taken, will be published in a subsequent Weekly List and will not be subject to call-in.

E3271 RULE 15 Keynsham Land Acquisition (WL)

Cabinet Member for Housing, Planning, and Economic Development, Cabinet Member for Resources, Council Leader

Author/Contact: Simon Martin

Free to Decide: Not before 1st Mar 2021

An opportunity has arisen to acquire approx. 70 acres of land in Keynsham that would facilitate the early delivery of adopted transport policy, as set out in the Joint Local Transport Plan 4, that is required to address existing congestion issues and likely to be required before new homes could come forward. The site is currently in the greenbelt and not allocated, but in the future could form part of a wider area, that through comprehensive development could deliver 1500+ homes. The enabling infrastructure would help to alleviate existing traffic congestion in Keynsham, enable delivery of wider public transport improvements as well as unlock access to the site and support the new development. The Council is seeking grant from WECA's Land Acquisition Fund (LAF) to acquire the land
