REPORTS FOR CABINET MEMBERS ON MATTERS WITHIN THEIR PORTFOLIO OR OF OFFICERS ON MATTERS WITHIN THEIR RESPONSIBILITY

These decisions will be taken on or after the date shown, following a 5-working-day public consultation period. The report sent to the decision maker is attached. The decision, once taken, will be published in a subsequent Weekly List and will be subject to Call-in.

E3519 Somer Valley Links, Strategic Transport Corridor Project (WL)

Cabinet Member for Climate Emergency and Sustainable Travel

Author/Contact: Kate Hobson

Free to Decide: Not before 4th May 2024

The Somer Valley Links project covers travel between Midsomer Norton, Westfield and Radstock and Bath/Bristol along the A37, A362 and A367.

It aims to develop better infrastructure to provide more options to travel sustainably – whether walking, wheeling (using a wheelchair or mobility scooter), cycling or using the bus.

The proposals aim to:

Improve bus stops; Extend bus lanes and improve junctions; Create new cycling and walking routes; Introduce mobility hubs – places where people can switch between different types of transport easily.

DECISIONS TAKEN BY CABINET MEMBERS ON MATTERS WITHIN THEIR PORTFOLIO OR BY OFFICERS ON MATTERS WITHIN THEIR RESPONSIBILITY

These decisions will be implemented after the date shown, unless called-in by 9 Councillors.

E3527 Sustainable Construction Checklist Supplementary Planning Document (SPD) Review and Update of Energy Summary Tool 1 (WL)

Cabinet Member for Built Environment and Sustainable Development

Author/Contact: Richard Daone

Decision made and published: 25th April 2024

Call-in deadline: 2nd May 2024

Policy SCR6 of the LPPU sets out energy use standards that new residential development is required to meet. The Sustainable Construction Checklist SPD sets out the information that applicants are required to submit in order to demonstrate compliance with the energy use standards in the policy. It is proposed to amend the SPD to enable the Standard Assessment Procedure (SAP) to be used for applications for schemes of up to 25 dwellings (including a

maximum of 9 flats). Currently SAP can only be used for minor applications of up to 9 dwellings, with the more complicated PHPP (Passivhaus) tool required for schemes of 10 dwellings or more. The proposed amendment to the SPD will be subject to public consultation.
