4 THE REPORT

- 4.1 The Partnership Board oversees the activities of the integrated commissioning functions and its members need to be aware of performance to enable the role of the Board to be delivered and to intervene where necessary to address performance issues.

The attachments consist of the high level summary of performance and scorecards which was produced for the Clinical Commissioning Group in December 2011 and PCT Board in January 2012.

Performance reporting arrangements continue to evolve in light of changes to the Health and Wellbeing Board, PCT cluster arrangements and development of the Clinical Commissioning Committee and People and Communities Department.

The intention is to allow the Board to continue to remain informed and assured that performance is being appropriately managed, with a 'lighter-touch' reporting arrangement than previously. Feedback would be welcomed.
