Background

The rationale for the LSP Board using a dashboard comes from the need to take a view of activity across the whole of the LSP. It is suggested that the LSP Board Dashboard will provide a way of reporting issues such as performance, risk and funding activity in one standing agenda item, to be presented at each meeting.

Key Issues

The LSP Board Dashboard has been drafted to create a high level summary of the overall picture of activity across the Local Strategic Partnership. The LSP Board Dashboard at **Appendix 1** is structured under three headings of 'Resources', 'Updates and Progress' and 'Performance and Risk'.

Recommendation

It is recommended that the Dashboard is presented as a standing item on the forward plan at every Board meeting.
