

K2 Development TRO (Park Road)  
FORMAL CONSULTATION

Name	Date	Comments	Opinion	
			For	Against
TN	14/09/12	Why are lines needed now, if not needed before? Also raised concern over where residents will now park, and the speed of traffic using the new road.		✓
GS	14/09/12	If lines were not needed before, and the development isn't going to increase traffic, why are they needed now?		✓
J & J S	15/09/12	Points out the planners said that there would be no increase in traffic flow, so why has that changed?		✓
DG	16/09/12	Accused the council of corruption as the residents lost their garages, and now will lose their on-road parking, and be forced to use car parks.		✓
POLICE	17/09/12	No observations either way on the scheme.		
LW	17/09/12	If lines were not needed before, and the development isn't going to increase traffic, why are they needed now?		✓
L & TH	19/09/12	Thinks the works will force residents to park further down the road, causing more problems. Also made reference to the report saying that the development will not increase the traffic flows.		✓
AJ	22/09/12	If lines were not needed before, and the development isn't going to increase traffic, why are they needed now?		✓
R & LC	22/09/12	If lines were not needed before, and the development isn't going to increase traffic, why are they needed now?		✓
SA	25/09/12	If lines were not needed before, and the development isn't going to increase traffic, why are they needed now?		✓
A & SD	26/09/12	Why are they needed now when they were not needed before? Also, why did Planning not make sure there was enough provision in the design to deal with the increase in traffic?		✓
S & DF	29/09/12	If lines were not needed before, and the development isn't going to increase traffic, why are they needed now? Also, as she doesn't live there, but visits family, how is she supposed to park when visiting?		✓
JS	01/10/12	Doesn't know why they should be needed, as there is no expected increase in the volume of traffic. Also suggests that they will just frustrate the residents.		✓
KF	01/10/12	Doesn't know why they should be needed, as there is no expected increase in the volume of traffic.		✓

JS	02/10/12	If the review by the consultants showed that there would be no increase in traffic flows, why are they needed? Was the statistical evidence flawed?		✓
