

AQ78 PETITION

We support the creation of a Restricted Byway along the route of the AQ78 footpath. This will allow cycling between Combe Down and Claverton Down.

- An off-road cycle route will be beneficial to pupils at Ralph Allen School and students at the University at Bath. The path will be safer and more convenient than Claverton Down Road, promoting a healthy and environmentally sustainable mode of transport.
- Regularising the route as a cycle path will allow safety improvements to facilitate responsible shared use.
- A cycle path will be upgraded and maintained to a better standard than present, improving access for pedestrians, wheelchair and pushchair users and for cyclists.
