New routes for 2013 are part of the National Cycle Network

About Sustrans

Sustrans is the charity that's enabling people to travel by foot, bike or public transport for more of the journeys we make everyday.

It's time we all began making smarter travel choices.

Make your move and support Sustrans today.

The Two Tunnels Greenway

This virtually flat path connects Bath to the Midford Valley, following the track-bed of the former Somerset and Dorset Railway. It incorporates the Devonshire Tunnel and Combe Down Tunnel; the longest walking and cycling tunnel in Britain.

The route links with the Colliers Way at Midford to Wellow, Radstock and Frome in the south, the Bristol to Bath Railway Path in the west, and the Kennet and Avon canal path east to Bradford-on-Avon and Devizes.

This new route, opened in April 2013, is just part of Sustrans' UK-wide project to extend the National Cycle Network into the heart of thousands of communities across the UK.

Bath walking and cycling network

This map has been developed to help you travel around Bath and the surrounding area by foot, bike and public transport. Each grid on the map overleaf represents an average of 10 minutes walk or four minutes cycle ride, showing just how quick it is to get around under your own steam. However, do allow additional time for the occasional hill.

Two new bridges across Millmead Road and Monksdale Road, two tunnels that run 100m under the surrounding hills, and a spectacular viaduct, transport users from close to the city centre into the surrounding countryside and back again. Or why not take the lane from Tucking Mill to Dundas Viaduct to join the canal path back to Bath, a scenic 13 mile circular tour.

This map also displays bus routes and stops to enable you to link into journeys where you need to travel further afield.
