

### TRO Consultation - Feedback Responses

Address	For / Against?	Points Raised	Response
Somers Court	For	Strongly in favour of the proposal, as it would improve traffic visibility when entering and leaving Gullock Tynning, while also improving road safety.	Noted
Hope Terrace	Against	This was copies of the same letter, but they have been signed by separate residents. The letter states they need on-road parking as there is no room to park at their properties. They need transport to get to work / childcare / school, and that the cars that park there are mostly residents ones anyway. A suggestion is made that they would have to sell their cars if they can't park them, and that it would have a knock-on effect if they wanted to sell their houses in the future, as no-one would want a house you can't park near.	Parking provisions for residents and their visitors is still available on Gullock Tynning. The restrictions are being provided to encourage considerate parking to preserve visibility around the junctions and assist vehicles turning. It is considered that these restrictions are necessary in order to improve safety for all road users. It is still possible for vehicles to park on these restrictions for loading / unloading purposes, provided they do not obstruct other vehicles from accessing the area.

### TRO Consultation - Feedback Responses

Address	For / Against?	Points Raised	Response
4 Letters for Hope Terrace	Against	Four letters for two residents. States they will have to sell their cars, as they can't keep an eye on them if parked further away. He also thinks it would affect his work, as he needs to transport £2K worth of tools, and needs to remove them each night. Also, it would have a knock-on effect with her mother, who is in poor health. The employer also stated that her job would suffer as she needs her car for work.	See above response.
Ham Gardens	Against	Copies again, but has been signed separately. They need parking as there is no room to park at their properties. They need to get to work / childcare / school.	See above response.
