5 THE REPORT

Background

5.1 The Local Government Act 2003 requires the Council to 'have regard to' the Prudential Code and to set Prudential Indicators for the next three years to ensure that the Council's capital investment plans are affordable, prudent and sustainable.

5.2 The Act therefore requires the Council to set out its treasury strategy for borrowing and to prepare an Annual Investment Strategy; this sets out the Council's policies for managing its investments and for giving priority to the security and liquidity of those investments.

5.3 The suggested strategy for 2011/12 in respect of the following aspects of the treasury management function is based on the Treasury Officers' views on interest rates, supplemented with leading market forecasts provided by the Council's treasury advisor.

The strategy covers:

•	Treasury limits in force which will limit the treasury risk and activities of the Council;
•	Prudential Indicators;
•	The current treasury position;
•	The borrowing requirement;
•	Prospects for interest rates;
•	The borrowing strategy;
•	Debt rescheduling;
•	The investment strategy.

5.4 It is a statutory requirement under Section 33 of the Local Government Finance Act 1992, for the Council to produce a balanced budget. In particular, Section 32 requires a local authority to calculate its budget requirement for each financial year to include the revenue costs that flow from capital financing decisions. This, therefore, means that increases in capital expenditure must be limited to a level whereby increases in charges to revenue from: -

1. increases in interest charges caused by increased borrowing to finance additional capital expenditure, and
2. any increases in running costs from new capital projects, and
3. increases in the Minimum Revenue Provision for capital expenditure

are limited to a level which is affordable within the projected income of the Council for the foreseeable future

5.5 The revised CIPFA Treasury Management in Public services Code of Practice, adopted by Council in February 2010, requires the Treasury Management Strategy and policies to be scrutinised by an individual / group of individuals or committee. This report is tabled to be scrutinised by the Corporate Audit Committee at the 1st February 2010 meeting, following which any recommendations will be reported back verbally as an update to this report.

2011/12 Treasury Management & Annual Investment Strategy

5.6 The Prudential Code was introduced for the first time in 2004/05. The Strategy Statement for 2010/11 set Prudential Indicators for 2010/11 – 2012/13, which included a total borrowing requirement at the end of 2010/11 of £105 million. At the end of December 2010, external borrowing was at £90 million, with no further borrowing planned in the 2010/11 financial year. There is a full provision for this borrowing within the Council's revenue budget.

5.7 The proposed Treasury Management Strategy is attached at Appendix 1 and includes the Prudential Indicators required by the Prudential Code. The Prudential Indicators contained within this report are currently draft and could be affected by changes made to the capital programme, following decisions on the budget report which is also on the agenda for this meeting. It is therefore requested that the Cabinet grant delegated authority to the Divisional Director - Finance and the Cabinet Member for Resources to agree any changes to the indicators prior to reporting for approval at Full Council on the 15th February 2011.

5.8 Although the Prudential Indicators provide for a maximum level of total borrowing, this should by no means be taken as a recommended level of borrowing as each year affordability needs to be taken into account together with other changes in circumstances, for example revenue pressures, levels and timing of capital receipts, changes to capital projects spend profiles, and levels of internal cash balances.

5.9 The budget report, which is also on the agenda, includes full provision for the revenue costs of proposed borrowing recognising the affordability of the capital programme including the significant efficiency savings which will be generated as a result.

- 5.10 Appendix 1 also details the Council's current portfolio position as at 31st December 2010, which shows after the netting off of the £76.1 million investments, the Council's net debt position was £13.9 million.
- 5.11 The potential generation of significant capital receipts of up to £100m over the next five years to invest in and implement the Public Realm & Movement Strategy and other necessary infrastructure for the future sustainable development of the area, as detailed in the Future Council report from the agenda of 3rd November 2010 Cabinet, could lead to a decrease in the future borrowing requirement of the Council as they are potentially applied to support planned capital projects.
- 5.12 The Annual Investment Strategy is attached at Appendix 2. This sets 'outer limits' for treasury management operations. While the strategy uses credit ratings in a "mechanistic" way to rule out counterparties, in operating within the policy Officers complement this with the use of other financial information when making investment decisions, for example Credit Default Swap (CDS) Prices, Individual Ratings, financial press. This has been the case in recent years, which protected the Council against losses of investment in Icelandic banks.
- 5.13 The Counterparty listing in Appendix 3 includes credit ratings from three agencies, as well as a sovereign rating for each country. Counterparties who now meet the minimum criteria as recommended in Appendix 2 as at 31st December 2010 are included in the listing in Appendix 3.
- 5.14 Interest rate forecasts from the Council's Treasury advisors are included in Appendix 1.
