- Video about Connecting Communities – the importance of local engagement.

2. Introduction to the Facilitated Workshop – Rowena Harris

Purpose – the Forums have been designed to provide a stronger voice for the community and help improve engagement with the public sector partners. The workshop aimed to help the Forums consider different ways of working together on specific ideas, gain a better understanding of what partners can offer and review the influence and effectiveness of the Forums for the future.

a. What's already happening? The Forums could provide ways of exchanging information: people were asked to bring posters or a pre-written postcard/notes to tell other people in the area about things planned or underway to improve things in their community.

b. What issues concern you NOW and what ideas do you have to make a change? People were encouraged to write on post it notes under the following headings:

1. Health & Wellbeing
2. Transport
3. New housing and infrastructure developments
4. Environmental Sustainability & Climate Change
5. Skills and Jobs
6. Stronger and Safer Communities
7. Education
8. Young people
9. Older People

These post it notes were typed up and are included in the next section of this report.

c. Action Planning : the attendees were asked to propose what they wanted to discuss further in small groups. Five themes were suggested and a lead was nominated for each to ensure action is taken forward:

- **Alternatives to the Parish Ranger Scheme:** leads Carolyn Beecroft (Chelwood PC) and John Twist (Corston PC)
- **Improving the cascade of information from Police to residents:** lead PC Kerry Grace, Avon and Somerset Police

- **Improve communication between B & NES & Parish & Town Clerks;** lead Jo Swift with Andy Thomas

Detailed notes and actions agreed in each discussion are included in the next section of this report. The 'Lead' will report back on progress at the next Forum meeting.
