

**Nebridge Hill Zebra Crossing**

<b>Name</b>	<b>Location</b>	<b>Objection/Support</b>	<b>Detail</b>
Dawn Osbourne	2 Newbridge Hill	Objection	Does not want a zebra crossing directly outside of her property as it will encourage people to loiter outside her property and cause security issues. Also feels it is an unsafe place for a crossing so close to the roundabout and as vehicles reversing out of her access may be doing so dangerously if crossing is there. Explained that the proposed zebra crossing is in exactly the same location as the current pedestrian refuge island crossing point and therefore there will be very little change in usage compared to current usage. Road Safety Audit concluded that proposals were safe. Meeting held on site to discuss issues however objector would not withdraw objection.
Mrs V.A.J Osmond	51 Roselyn Road	Objection	Scheme is unnecessary and waste of money. Mrs Osmond has been advised that we will not provide a shield on the beacons which is not acceptable to local residents. (Shields will be provided).
Liz Baldrian	8 Newbridge Hill	Objection withdrawn	Objecting as concerned over light pollution from crossing. Advised that lights would be dimmed during the night to similar levels to the street lighting in the street and that shields would be fitted to beacons from the outset. Objection Withdrawn
Samantha Wright	14 Newbridge Hill	Objection withdrawn	Objecting as concerned over light pollution from crossing. And feel it isnt needed. Advised that lights would be dimmed during the night to similar levels to the street lighting in the street and that shields would be fitted to beacons from the outset. Objection Withdrawn
