# How will we identify the “most capable” Prime Provider...

# The Prime Provider Partnership...

- Could be one or multiple organisations, but will be commissioned through a single commissioning contract
- Will be the Commissioners' key partner in the delivery of integrated community services for the contract term, and take on a leadership role in the wider community health & care system
- Will be responsible for supporting the Commissioners in the further commissioning of social prescribing Systems (DPS)

# SPECIFYING AND CONTRACTING FOR SERVICES

# Moving to Outcomes Based Accountability....

# A reminder of lessons learnt...

- Rigorous evaluation and assessment of risks within the procurement, including re-assessment of bidders where there are material changes to their arrangement during the process, and a full awareness of ownership and legal structures associated with partnership arrangements
- The appropriate use of Parent Company Guarantees or other performance warranties
- The ability to triangulate the narrative (quality response) of a bid with income and staffing assumptions contained within a bid
- A commitment to proactive engagement with, and full reporting to, Executive Officers and Members
- Clear accountability and relationship management between the Commissioner and the Prime Provider, and from the Prime Provider to all other providers
