Jeremy Boss – Supporting Statement

I am standing for the position of Vice Chair of the Bath City Forum as, like all of us, I would like to make a difference for my home City. The Forum needs to build on its first year to develop from a primarily listening group to one that positively influences developments in the City for the better. The Vice Chair can help do this by working with the Chair to harness the skills and capabilities of the forum members, both democratically elected and co-opted, to make a real difference. We need to draw on all the talents of Bath residents to help us. We will need to build a Vision for Bath to be one of the leading small cities in the UK. We should focus on those areas that directly impact on the Urban City of Bath leaving wider issues to the full council. Developing working groups that will support and influence council officers and elected members enhancing rather than duplicating existing work. The likely topics for focus include: a long term Vision for the City, Planning & Development, Economic Prosperity, Transport, Housing, Culture and Heritage while seeking to build an underpinning civic cohesion.

My natural approach is to be collaborative seeking to bring together all our skills to deliver real influence. I believe my background as a political neutral, but active local resident, with experience as a senior civil servant gives me the skills and understanding to make the Vice Chair effective in helping to deliver the ambitions of the Forum that I hope we all share.
