## **1 THE ISSUE**

- 1.1** The purpose of this report is to inform the Pension Board of performance figures for Fund Administration for the three months to 31 March 2017.
- 1.2** Further to the introduction of The Pension Regulator (TPR) Code of Practice 14 and The Public Service Pensions (Record Keeping & Miscellaneous Amendments) Regulations 2014, this report includes progress on the TPR Data Improvement Plan and levels of employer compliance.

## **2 RECOMMENDATION**

The Board is asked to note:

- 2.1** Membership data, Employer Performance and Avon Pension Fund Performance for the 3 months to 31 March 2017
- 2.2** Progress and reviews of the TPR Data Improvement Plan

## **3 FINANCIAL IMPLICATIONS**

- 3.1** There are no direct implications related to this report as it is an information report.

## **4 MEMBERSHIP TRENDS**

- 4.1** Appendix 1 provides a detailed breakdown of employer/member ratio and split between whole time and multiple employment membership as well as a snapshot of individual employer and member make up. The increasing number of new smaller employers to the Fund as part of the fragmentation of the employer base (newly created Academies and Transferee Admitted Bodies) has a direct impact on the administration workload with increased movement between employers, especially within the education sector. Continued development of data reporting going forward will enable further understanding of the demographic nature of employer type and associated member make up as employers continue to evolve.

## **5 LATE PAYERS**

- 5.1** The Fund is required to monitor the receipt of contributions and report materially significant late payments to the Pensions Regulator.
- 5.2** The Fund maintains a record of all late payments, showing the days late, the amount of payment and reason for delay and whether the amount is of significance.
- 5.3** Appendix 5 reports late payers in the period to 31<sup>st</sup> March 2017. There were a small number of late payments in the reporting period, none of which were of material significance and therefore recorded internally but not reported to TPR. The Fund has taken mitigating action in each case to ensure employers are aware of their responsibilities going forward.

## **6 EMPLOYER PERFORMANCE**

- 6.1** The leaver form checking process continues, immediately flagging employer data submission errors and omissions. It also addresses any issues at point of receipt enabling a prompt communication back with employers where necessary.
- 6.2** During the period from 1 January to 31 March a total of 1,768 leaver forms were received with an average error rate of 33.10%. This is a disappointing result considering the amount of work that has been put into employer engagement and training.
- 6.3** Sample of errors for March Leaver Forms

Employer	Leaver Forms Received	Number in Error	%
BANES Council	91	30	33
Bristol Council	137	34	25
North Som Council	72	17	23
South Glos Council	90	18	20
Academies	178	96	54
Further Education	177	59	33
Other	40	22	55

- 6.4** A review has now started to cover the following areas:

- (1) Review of the leaver form process to see if efficiencies can be made in terms of processes for APF and ease of completion for the employer
- (2) Analysing the data from Year End, TPR and Leaver forms with the aim of targeting poorly performing employers and setting up Data Improvement Plans. More information will be available for the next meeting
- (3) A series of employer forums has been arranged and it is planned to seek employer feedback on training and support provision by APF.

## **7 AVON PENSION FUND ADMINISTRATION PERFORMANCE**

### **7.1 Key Performance Indicators for the 3 months to 31 March 2017.**

**7.2** The information provided in this report is based on the Avon Pension Fund's Service Level Agreement which falls in line with the industry standards set out by the LGPC & used in CIPFA benchmarking. All standards fall within the regulatory guidelines set out in The Occupational & Personal Pension Schemes (Disclosure of Information) Regulations 2015 which require provision of information to members.

**7.3** Full details of performance against target, in tabular and graph format, are shown in Appendix 2.

**7.4** Following completion in November 2016 of the strategic project to overhaul Task Workflow a new suite of report extracts have been written and introduced to measure SLA standards for processing administration tasks. At the same time new RAG reporting standards have been set, replacing those previously in use which were deemed inconsistent. The new reports have flagged a high proportion of internal performance as being below standard. This can be evidenced by limited workforce availability and high volume of workload during the reporting period. Work targets are being set to improve performance over the coming months and the appointment of additional officers following the administration restructure should reflect an improvement of KPI's in future reports. A further enhancement is being made to the report to show the spread of performance over various time scales eg 5 to 10 days, 11 to 15 days etc, which will provide more meaningful data. This will be available from the autumn onwards.

### **7.5 Admin Case Workload**

**7.6** The level of work outstanding from tasks set up in the 3 month period is reported in Appendix 2 Annex 1 & 2 by showing what percentage of the work is outstanding. As a snapshot, at 31 March 2017 there were 7,728 cases outstanding of which 72% represents actual workable cases and 28% represents cases that are part complete, pending a third party response.

**7.7** The increase in workable cases is due to a combination of events:

- The checking of leaver forms continues on the Member Services Team meaning that the Team have less resource available to work on other outstanding cases.
- Following the restructure the Member Services Team have 1x vacant post at Senior Pension Officer level. However appointments have now been made to fill 3x at Pension Officer and 1x at Assistant Pension Officer level.

- The volume of incoming work has increased further following the issue of member lists to all employers requesting they cleanse their data for this year end and send outstanding starter and leaver information.
- The overall outstanding cases remains high due to app 2,000 linking tasks set up in September 2016. A process for dealing with all new linking cases has been rolled out to the Member Services Team and a monthly report will now be run to pick up new cases. The 2,000 cases include the remaining backlog of cases built up between April 2014 and September 2016 which were not cleared as part of the project. Heywood only updated Altair to allow correct processing of these cases in May 2016.

## **8 YEAR END / BREACHES**

### **8.1 Year End 2015/16 employer breaches**

**8.2** Of the 31 employers who breached the data queries exceeding 10% of membership levels set by the APF 29 have undertaken the bespoke training workshop to improve performance. Data Improvement Plans have been issued to all of them asking for their commitment to improve their data at this Year End. The penalty fine (£250) has been issued to the two remaining employers (St Ursula's Academy and Greenfield Academy – both EACT) who did not attend the training together with notification that they will be reported to TPR if continue to breach TPR Code. The breaches control spreadsheet has been updated according to the employer's response. All fined employers have been closely monitored during the year end process to ensure they are meeting the requirements of their Data Improvement Plan. Year End data has now been received and a report on progress will be provided at the next meeting.

**8.3** The above breaches are not considered material breaches. They will be reported to the Pensions Board and Pensions Committee, but are not considered of a significant nature to be reported to the Pensions Regulator. However the possibility of reporting employers to The Pension Regulator was explained at the training sessions.

**8.4** The number of breaches for 2015/16 was significantly lower than previous years, indicating that promotion to all employers of their Year End responsibilities, the breaches policy, potential penalty fines as well as training opportunities and support from APF are proving effective.

**8.5** Contact has been made with William Fox (Head of Tax and Treasury) of ISS Mediclean on 7th April and they have committed to work with us and resolve all the outstanding issues and agreed to sign the DIP. To date they have sent their LGPS53 and submitted their year-end data for 2016/17 on 24/4/2017, however this is yet to be checked and loaded. They have also paid £1,000 of the £1,250 fines. Progress is definitely being made and the lines of communication are now open with them.

Bristol City Council (the outsourcing employer) have been made aware of the issues with ISS Mediclean however they have not reported to the Fund any action they may have taken.

## **8.6 Year End 2016 / 17**

- (1) All year end spreadsheets were issued by 31 March with a deadline for returns of 2 May. An update will be provided at the next meeting.

## **9 CUSTOMER FEEDBACK – RETIREMENT QUESTIONNAIRE**

- 9.1** Appendix 6 highlights the 25 responses to the online survey for retirees. In summary, 72% of respondents indicated that they were very satisfied (55%) or fairly satisfied (17%) with service they received from the Avon Pension Fund.
- 9.2** We are continuing to explore ways to gather more customer feedback and will report back to the Board on progress.

## **11 EMPLOYERS' CONFERENCE 2017 FEEDBACK**
