Vision

The Bathscape scheme will ensure Bath and its setting are better recognised, managed and experienced as a landscape city, with the surrounding hills and valleys enhancing the World Heritage Site and actively enjoyed by all. A greater number and wider range of people will feel connected to their local landscape and inspired to explore the outstanding built and natural environments, improving health and wellbeing.

The full 5 year scheme will deliver 25 co-ordinated projects under the themes of;

Conserving & Restoring	Projects and activities that will enable the heritage to be better managed and in better condition
The Therapeutic Landscape	Projects and activities that develop the therapeutic tradition associated with the heritage of Bath to support health and wellbeing through greater contact with the landscape and natural environment
Access	Projects and activities to improve access to the landscape and natural environment and reduce physical and other barriers
Learning Training & Skills	Activities to improve the understanding and skills of target audiences, volunteers and participants

Prior to the HLF decision a second annual Bathscape Walking Festival will be run 15th -23rd September 2018
