<b>Summary</b>	<p>In April 2013 the Health and Social Care Regulations changed the statutory responsibility for health protection arrangements. B&amp;NES Council acquired new responsibilities with regard to protecting the health of their population. Specifically the Director of Public Health (DPH), on behalf of the local authority has to assure himself that relevant organisations have appropriate plans in place to protect the population against a range of threats and hazards and to ensure that necessary action is being taken.</p> <p>The Health Protection Board was established in November 2013 to help fulfil this role.</p> <p>This annual report documents the progress made by the Health Protection Board on the priorities and recommendations made in the 2016-17 report; highlights the key areas of work that has taken place in 2017-18 and identifies priorities for the next 12 months.</p>
<b>Recommendations</b>	That the B&NES Health & Wellbeing Board notes this annual report and supports the following recommended priorities for the Health Protection Board in 2018/19.
<b>Rationale for recommendations</b>	<p>The Health Protection Board is committed to improving all work streams. The priorities have been jointly agreed by all Board members as key issues that need to be addressed in order for the DPH, on behalf of the local authority to be assured that suitable arrangements are in place in B&amp;NES to protect the health of the population. This is systematically carried out by monitoring key performance indicators, maintaining a risk log and through intelligence, debriefs of outbreaks and incidents and work plans of the Local Health Resilience Partnership &amp; Local Resilience Forum which are based on Community Risk Registers.</p> <ol style="list-style-type: none"> <li>1. Support the review, development and implementation of all Air Quality Action Plans.</li> <li>5. Continue to reduce health inequalities in screening and immunisation programmes.</li> <li>6. Improve the uptake of flu vaccinations in at risk groups, pregnant women, health and social care workers, and carers; and pneumococcal vaccination amongst under 65s at risk and over 65s.</li> </ol> <p>The recommendations contribute to the delivery of these outcomes in the Joint Health and Wellbeing Strategy:</p> <p>Theme 1 - Helping people to stay healthy: Create healthy and sustainable places, by improving the air quality in B&amp;NES.</p> <p>Theme 3 – Creating fairer life chances by increasing the resilience of people and communities, by ensuring preparedness for outbreaks of diseases and environmental incidents and hazards as well as ensuring individuals immunity to a number of diseases through immunisation and protect the wider population through herd immunity.</p>
<b>Resource implications</b>	None
<b>Statutory considerations and basis for proposal</b>	<p>This is a statutory role of the Director of Public Health acting on behalf of the Secretary of State.</p> <p>A number of the priorities will help to address health inequalities, particularly the focus on screening and immunisation programmes. Improving air quality in B&amp;NES will directly impact and health and inequalities, sustainability and the natural environment.</p>
