There is a revenue reversion risk associated with the expenditure on this project if the scheme does not progress within the Terms of the HLF Grant. This risk is considered to be very low and mitigation of the risk is managed through Quarterly updates and reports to the HLF (financial and project progress) and the project is closely monitored by an HLF appointed Monitor who will ensure that the project stays within the terms of the grant.

Other key risks to the project and their mitigations are detailed in the Project Risk Register that has had approval and will be kept under monthly review throughout the project as identified in the PID.

RISKS				
Key Risks to Project	Mitigating Actions			
A comprehensive risk register is available for the Delivery Phase.	The risk register will be kept under review by the project team, the Project Board and the HLF.			
Unsecured Funding - Unsecured funding is £50k from Sport England and £20k from Network Rail.	SE bid of £50k to be submitted in Q4 of 2018/19; SE are supportive of this bid. Network Rail funding unsecured - written commitment given but to be confirmed. Mitigating these risks a value			
Rising capital costs	Cost Plan {drawn up by Huntley Cartwright Cost Consultants] has accounted for inflation and built risk into the plan.			
Programme delays (excluding Consents in place)	1yr construction should be adequate, slippage into 2yr ok

## **Details of Other Options Considered:**

The Project has been under consideration in the current form since 2016, has been through Heritage Lottery Round 1 Bid and grant award for Development Fubding. Following a successful grant award at Round 1 the project progressed to a R2 Bid last August and was successfully awarded the Delivery Phase money from the HLF. During this process many options and alternatives were discussed and pursued. Doing nothing was always the backstop. Now that we have the grant award, the project needs to deliver.
