

Disability Related Expenditure Factsheet

Draft Care and Support Charging and Financial Assessment Framework

We won't consider costs incurred for:

- General items or services required for daily living used by the general population.
- Garden maintenance, chiropody and basic domestic tasks.
- Privately arranged care and support.
- Medical prescriptions and chemist items.
- Equipment – this is available through community equipment.
- Any item or service met by a payment from a Grant (e.g. Disability Facilities Grant) or where another funding source has been provided.
- The difference between the actual cost and a lower cost alternative where we consider it was reasonable for a lower cost alternative;
- Structural or landscaping work (e.g. tree surgery, path laying or re-laying) in gardens or to buildings unless.
- Disabled Facilities Grant contributions apply in respect of the works carried out.
- Any works to help prevent falls (e.g. installing hand rails or repairing footpath).
- The modifications to the garden or building are essential for you to be able to use/store securely scooter or wheelchair that you need to use, or to provide secure storage for a scooter and the facility is used as such. In this case, the amount will be calculated as if the modifications were equipment with a suitable life span applied.
