The report incorrectly refers to Section 16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 in the second to last paragraph of the design and heritage section of the report. The application does not require listed building consent but is within the setting of listed buildings as such this section should have instead referred to Section 66 of the Planning (Listed Buildings and Conservation Areas) Act 1990.

The paragraph should therefore read;

“There is a duty under Section 66 of the Planning (Listed Buildings and Conservation Areas) Act 1990, when considering whether to grant planning permission for development which affects a listed building or its setting, that the local planning authority shall have special regard to the desirability of preserving the building or its setting or any features of special architectural or historic interest which it possesses. Here it is considered that the proposals are consistent with the aims and requirements of the primary legislation and planning policy and guidance. The proposals would not have an unacceptable impact on the listed building or its setting and would preserve the significance of the designated Heritage asset. The proposal accords with policy HE1 of the Placemaking Plan for Bath and North East Somerset (2017) and part 16 of the NPPF.”
