

**ALICE PARK TRUST SUB-COMMITTEE – 29 MARCH 2021**

**PUBLIC QUESTIONS – GRAHAM PAGE**

It has come to my attention that works to both the skate park and the tennis courts are outside the provisional areas agreed at previous sub-committee meetings, could the sub-committee look at these alterations and revise the agreements accordingly?

Also, there is lack of clarity over access arrangements for maintenance and provision of access to Trust land, could the sub-committee also review these?

Once these are undertaken would the sub-committee bring those revised arrangements to the next available meeting of the Charitable Trust Board for approval?

**Response**

The Trust will look at the questions asked but will not be preparing any report to the Charitable Trust Board for approval, this will be in line with the delegation of all management functions of the park to the Alice Park Trust Sub-Committee.

I am not aware the questioner has been asked by the Charitable Trust Board to make such a request and if it exists would expect that to come from the Chair and not from a non-voting member.
