

Fia Heijltjes statement to Cabinet on 23rd June 2021

Hello, my name is Fia and I am 6 years old.

I like to cycle to school but I also want to cycle to swimming.

My mum and dad think that the roads are not safe. The cars come too close and go too fast.

My little sister also wants to cycle to school when she is older.

Cars are not good for the environment. They make the air yucky. If the roads are safer, more people will cycle and walk.

I want you to listen to young people because we want to protect our planet.

Thank you for listening.
