

Alice Park

Activity and Progress since August 2021

Court Bookings

2225 people have accessed the courts at Alice Park.

Note: The ClubSpark system only records the contacts that have booked a court through their household membership, booked a pay and play court or booked onto coaching or an activity and does not include who they might be playing with. Through experience Wesport have gauged that multiplying by 2.5 provides a close representation of the number of users of the courts.

Coaching

The coaching programme has now started and Wesport are just nearing the end of the first term of courses.

Adult Beginners – 5 participants

Adult Intermediates – 10 participants

Cardio Tennis – 6 participants

Meet and Greet – Wesport run monthly “meet and greet” sessions at each of the parks. Alice Park held the first session on the 21st May and had 16 people attend. This is an opportunity to meet other tennis players that use the courts so that they have different people to play against.

The next courses commence in June and Wesport are planning to run children's courses in addition to the adult groups that have started.

Clubs and Organisations

Iconoclasts Tennis Club – the club are a constituted club registered to the LTA. They have historically used the Alice Park courts for their club league matches and are doing so again this year and hopefully for the long term.

University of the 3rd Age - U3A use the courts with a block booking once a week and hope to play all year round.

Other Activity

Larkhall Festival – Wesport were approached by the Larkhall Festival to see if they we could provide courts for a tennis tournament on the afternoon of the festival. They offered to organise, promote and then run this event. Wesport paid for a coach to be present for the afternoon and run the friendly, social competition. There were 21 participants.
