E3419

Shortlist for the Temple Cloud Liveable Neighbourhood Area

Decision maker/s	Cllr Sarah Warren, Cabinet Member for Climate and Sustainable Travel
The Issue	<p>Executive Forward Plan Reference E3394 delegated the decision to:</p> <ul style="list-style-type: none">a) agree the proposed shortlists to be taken forward to preliminary design and engagement; andb) following preliminary design and engagement and final design and consultation, implement the shortlisted interventions; <p>to the Cabinet Member for Sustainable Transport and Directors of Place Management and Sustainable Communities, in consultation with cabinet and ward members.</p>
Decision Date	9th March 2023
The decision	<p>The cabinet member agrees to: -</p> <p>Make a decision to proceed with the shortlist of interventions set out in paragraphs 3.8: -</p> <ul style="list-style-type: none">a) Improvements to the footpath between Temple Cloud and Clutton;b) Provision of benches and other furniture around Temple Cloud Playing Field;c) Pedestrian priority crossings on Temple Inn Lane;d) A controlled crossing on the A37 in the South of the village;e) Improvements to the footpath between Cameley Surgery and the north of the village (Camley Surgery to Village Hall);f) The provision of street lighting along the St Barnabas' Church footpath and Brandown Close;g) A reduced speed limit of 30mph through Temple Bridge;h) A community gateway at the Temple Inn Lane entrance to the village; andi) Link Temple Cloud to Temple Bridge to help facilitate a circular route and better connectivity.

	<p>And 3.9: -</p> <ul style="list-style-type: none"> a) Extend the 30mph speed limit on Temple Inn Lane; and b) Improvements to the footpath between the north-east and south of the village (Eastcourt Road to Village Hall). <p>Now taking them forward to preliminary design and engagement.</p> <p>Note that the proposed shortlist is based on work done with these communities to first identify their needs and then co-design potential solutions to address those needs, as summarised in Appendix A.</p> <p>Note that the proposed shortlist was next subject to technical review, both in terms of alignment with the Liveable Neighbourhoods strategy and other factors such as cost, practicalities and timelines, as summarised in Appendix B.</p> <p>Note that the proposed shortlist was then referenced back to the applications put forward by ward councillors in Spring 2021 to ensure that the package of interventions satisfied the aims of the original proposals.</p> <p>Note the opportunity to ‘fast track’ the shortlisted interventions set out in paragraph 3.12: -</p> <ul style="list-style-type: none"> a) Improvement to the footpath between Cameley Surgery and the north of the village (Camley Surgery to Village Hall); b) Improvements to the footpath between the north-east and south of the village (Eastcourt Road to Village Hall); and c) The provision of street lighting along the St Barnabas’ Church footpath and Brandown Close. <p>Note that the ability to proceed is subject to funding being available for the design, engagement, consultation and implementation work required because of this decision.</p>
<p>Rationale for decision</p>	<p>To enable the project to maintain its current timetable and deliver maximum benefit and value to the community as soon as possible.</p>
<p>Financial and budget implications</p>	<p>The funding allocated to implement the Liveable Neighbourhoods programme and associated Resident’s Parking Zone improvements comprises:</p> <ul style="list-style-type: none"> • A £6m allocation secured through the City Region Sustainable Transport Settlement, of which the WECA Grant is £5m and £1m is the match funding required from B&NES to meet it’s 20% minimum requirement for local contribution. • The £1m match funding in turn comes from the £2.2m supported borrowing allocation confirmed in the Council’s

	<p>Capital Programme in February 2022 budget setting.</p> <ul style="list-style-type: none"> Total funding approved to date is £3.2m, which includes funding of £800K from the Council's Strategic Transport Infrastructure CIL allocation and £220K from the Council's Project Initiation Fund. These last two sources will be restored on receipt of the full WECA Grant and future borrowing funded by Resident's Parking Zone income. <p>The total funding allocated is sufficient to complete the design of all the shortlisted interventions across the 15 areas in the LN programme and to deliver the three LN pilots and seven new Resident's Parking Zones. WECA have agreed to fund £440K towards scheme development and design and then once the Full Business Case (FBC) is submitted and approved they will release £4.56m of CRSTS grant to deliver across the project. The FBC will also determine the extent to which costs incurred to date will be eligible as match funding.</p>
Issues considered	Social inclusion, sustainability and equality.
Consultation undertaken	Consultation has been undertaken with the Directors of Sustainable Communities and Place Management, together with cabinet and ward members plus Section 151 Finance Officer and the Monitoring Officer.
