Vision

Bath & North East
Somerset Council

Improving People's Lives

*Bath will enhance its unique status by **adopting measures that promote sustainable transport** and decision making, whilst reducing carbon emissions and the intrusion of vehicles, particularly in the historic core. This will improve the quality of life for local people, enable more economic activity and growth, while enhancing the special character and environment of the city.*

Objectives

- **Reducing vehicle carbon emissions to achieve carbon neutrality by 2030**
- **Improving air quality and health**
- Promoting sustainable mobility
- Supporting and enabling economic growth, competitiveness and jobs
- Widening travel choice
- Widening access to opportunities: jobs/learning/training
- Safeguarding and enhancing the unique historic environment and World Heritage Site status
- Improving quality of life in the city

- Better Public Transport Options
- Creating Improved Places to Live and Work
- Cleaner Greener School Travel
- Connecting Bath to Rural Communities and Market Towns

“We want to enable travel choices, to make it easier for those of us who can, to leave our cars at home more of the time, making access easier for those who have no choice but to use a car”

Project Highlights

Bath
Clean Air
Zone

City Region Sustainable Transport Settlement

£540m across the West of England

£120m for Bath & NES

Delivery Deadline: March 2027

Bath to Bristol Corridor

Bath Sustainable Walking and Cycling Schemes

Midsomer Norton Package

Somer Valley Links

Bath City Centre

Manvers Street Maintenance

Liveable Neighbourhoods

The background image shows two teal-colored Tier e-scooters parked on a paved city street. The scooters are positioned in the foreground, with one slightly behind the other. They have black wheels, black handlebars, and black footpads. The brand name 'TIER' is visible on the front of each scooter. Yellow identification numbers are printed on the front of the scooters: '386391' on the front-most one and '386711' on the one behind it. In the background, a silver car with license plate 'WNZ 8716' is parked, and a blue truck is visible further back. A pedestrian is walking on the sidewalk to the right. The scene is set on a tree-lined street with a traffic light visible in the distance.

New micro-mobility contract with Tier started in September 2023, with around 500 E-bikes and e-scooters:

- 5630 journeys made on e-bikes
- 28,769 journeys made on e-scooters

Car Clubs: Launch Spring 24

“Publish, in close consultation with residents, a **10-year future planned cycling route map for our district**, as well as a vehicle circulation plan for the city.”
