			Climbing Wall, Ascent UK	All Weather Pitch, Bath City Football Club	Weston Library Improvements	Odd Down Sports Ground, GLL	Play Equipment Whiteway Green	Student Community Partnership Wardens	The World Heritage Fund
24/10/23 16:45	Climbing Wall, Ascent UK	This will help to fill a massive gap in activities suitable for families and people of all ages. Climbing is a sport which is extremely accessible for those with learning or social difficulties as well as a much broader audience. It teaches skills such as focus and problem solving as well as being a healthy activity which keeps you fit and encourages interaction and social wellbeing. Bath needs this!	1						
24/10/23 16:59	Odd Down Sports Ground, GLL	Because if the ground isn't cared for and money spent on it, it will degenerate and become unusable like it did before the present improvements were put in place.				1			
24/10/23 17:11	Climbing Wall, Ascent UK	This offering would be something completely new for Bath, something which I know from having 3 children at 2 different schools would be incredibly popular. It could be used all year round, regardless of the season or weather.	1						
24/10/23 17:34	Climbing Wall, Ascent UK	Would be a massive asset to the Bath community	1						
24/10/23 19:21	Climbing Wall, Ascent UK	This facility will provide fantastic opportunity for health, fitness and wellbeing amongst the community. The efforts to provide for such a large socioeconomic spectrum and abilities will be a genuine benefit to the city and surrounding areas.	1						
24/10/23 19:26	Climbing Wall, Ascent UK	I cant believe the nearest climbing centre is in Bristol. I used to climb avidly at uni in Leeds and there were four there. Surprised there is not even one.	1						
24/10/23 19:33	Climbing Wall, Ascent UK	The nearest climbing wall is Bristol and Frome and it would be great to have something more local. Especially as it would reopen an under utilised leisure facility	1						
24/10/23 19:40	Climbing Wall, Ascent UK	A public climbing wall would be an amazing addition to Bath. Climbing is a fast growing sport and there is currently a real absence of provision for climbers in Bath. Currently the closest walls are Bristol or Chippenham. This distance excludes people from experiencing climbing, in particular, people on low income, disabled people and young people. Climbing is an inclusive sport and this wall would help to continue to grow the south west paraclimbing community.	1						
24/10/23 19:51	Climbing Wall, Ascent UK;Weston Library Improvements	These offer reinvestment into a wider pool of residents where as others do not provide use of services directly to residents.	1		1				
24/10/23 20:05	Climbing Wall, Ascent UK	Climbing is a sport for all and builds communities. The addition of a cafe along with top notch climbing facilities will help to strengthen bonds between people. This is also a facility that does not currently exist in Bath with climbers travelling to Bristol or Chippenham currently.	1						
24/10/23 20:08	Climbing Wall, Ascent UK	Really good for local community, people's physical and mental health.	1						
24/10/23 20:16	Climbing Wall, Ascent UK	Great opportunity for an indoor facility that can be used comfortably all year round and is not available anywhere in the area	1						
24/10/23 21:13	Climbing Wall, Ascent UK;All Weather Pitch, Bath City Football Club; Play Equipment Whiteway Green	To help people access sports	1	1			1		
24/10/23 22:14	Climbing Wall, Ascent UK	There is not a climbing wall in Bath so I think it would be a great addition. It helps children with gross motor movement and is something different for the area.	1						
24/10/23 22:17	Climbing Wall, Ascent UK	A popular and unique alternative to being active in Bath	1						
24/10/23 22:58	Climbing Wall, Ascent UK;Odd Down Sports Ground, GLL	Both are projects which would benefit a wide age ranging audience, bringing forward facilities not currently available in the city.	1			1			
24/10/23 23:20	Climbing Wall, Ascent UK;Weston Library Improvements;All Weather Pitch, Bath City Football Club;Student Community Partnership Wardens	Would be great to visit them	1	1	1			1	

25/10/23 05:03	Climbing Wall, Ascent UK	Learning to climb in my 50s has been mentally and physically life changing for me. A climbing wall in Bath would offer the opportunity for all abilities and all ages to gain self confidence and the physical well being I have found. Not everyone has the ability and skills to participate the current heavily supported team sports on offer in Bath. However, climbing is sport that can being pursued individually by all abilities yet it provides an instant sense of community found in team sports.	1							
25/10/23 07:20	Climbing Wall, Ascent UK	Climbing is a great sociable sport for all ages and abilities. As well as getting a physical workout you exercise your mental problem solving skills and improve dealing with the mental game of being in a tough spot.	1							
25/10/23 07:35	The World Heritage Fund	The funding would continue to support the protection and enhancement of the Georgian features of interest as part of the World Heritage citation providing enjoyment of suchlike for generations to come.								1
25/10/23 07:37	Climbing Wall, Ascent UK	There is currently no climbing wall in Bath and having one would be amazing! It would be so good for the community	1							
25/10/23 07:57	Climbing Wall, Ascent UK;Odd Down Sports Ground, GLL	A climbing wall would be great for Bath as the nearest currently are Chippenham or Bristol. Plus the inclusivity of aspect is important	1				1			
25/10/23 08:38	Climbing Wall, Ascent UK;Weston Library Improvements;All Weather Pitch, Bath City Football Club;Odd Down Sports Ground, GLL	Good for community. Build community.	1	1	1	1				
25/10/23 09:12	Climbing Wall, Ascent UK	There is really nothing for young people to do indoors in Bath that helps develop skills and where they can gain progress, a sense of progression and build self esteem. We need a climbing centre (and an indoor skatepark while we are at it)	1							
25/10/23 09:15	Weston Library Improvements;All Weather Pitch, Bath City Football Club;Student Community Partnership Wardens ;Play Equipment Whiteway Green;Odd Down Sports Ground, GLL	Good for a range of the community		1	1	1	1	1		
25/10/23 09:31	Climbing Wall, Ascent UK	Great to have somewhere like this locally as other walls are quite far away in Bristol. Great for health and well-being.	1							
25/10/23 10:09	Climbing Wall, Ascent UK	There are no climbing facilities in the Bath area and it's desperately needed	1							
25/10/23 10:16	Climbing Wall, Ascent UK	I believe that Ascent Climbing Wall will bring a new and valuable resource to the local community in Bath. As a professional athlete, nationally ranked para-climber and sport scientist, I can attest for the profound social, physical and mental health impacts that climbing can have on individuals, as well as contributing to inclusivity and diversity within local communities through the welcoming atmosphere that the climbing community is known for.	1							
25/10/23 10:27	Climbing Wall, Ascent UK	There is no local wall and this a great sport that kids and adults alike love!	1							
25/10/23 11:26	Climbing Wall, Ascent UK	This is a much needed alternative activity for Bath and region. Currently, many travel to Bristol and beyond to access climbing centres. When we go on holiday, we always look for local climbing centres to take our children. Our daughter has a range of special educational needs, including a developmental co-ordination disorder, so participating in many sports increase her anxiety, however, she has embraced climbing as an activity. It provides strength, fitness and confidence.	1							
25/10/23 11:33	Climbing Wall, Ascent UK	Any project that gets people moving their bodies, learning a new skill, building on a skill and being part of a community is crucial for people, especially the younger generation who are faced with the draw of screens and technology....great for confidence building too....with mental health issues at an all time high, projects like this are needed for getting out and connecting with others....there isn't anything like this in Bath and would be a much needed indoor space...	1							
25/10/23 11:36	Climbing Wall, Ascent UK	This opportunity would be well supported by students and local young people. We need to diversify in what we can offer them in this area and this would be an excellent local amenity. Climbing is great for children with additional needs - could we offer this to help this ever increasing group of young people??	1							
25/10/23 11:38	Climbing Wall, Ascent UK	Climbing is a popular and growing sport with all ages that can be done indoors in the winter, and seems to have passed Bath by. If you want to go climbing/bouldering, you have to travel to Bristol, Chippenham, or Frome, only adding to the peak traffic before and after work. It is genuinely surprising that Bath doesn't have a climbing/bouldering centre already, and a new facility would address a sorely needed sporting and social demand.	1							
25/10/23 12:35	Climbing Wall, Ascent UK;Student Community Partnership Wardens ;Play Equipment Whiteway Green	They will have a beneficial impact on the local community in a number of ways increasing activity levels and mental health, and integrating various sectors of the community together.	1					1	1	
25/10/23 12:40	Climbing Wall, Ascent UK	This will be a great asset to the community providing accessible climbing to people on lower incomes and discounts to social housing customers and children on free school meals	1							

25/10/23 12:45	Climbing Wall, Ascent UK;Weston Library Improvements; The World Heritage Fund	Libraries are vital to bring people and information for free for all ages. They can be an important part of the community and provide access to IT and books for everyone especially those on tight budgets. The climbing facility is much needed in the bath area - the alternative means travelling in a car to Bristol or other places, which is costly & bad for the environment and makes these venues overcrowded. For SEN children especially, a climbing facility leads to happy/contented/confident children	1		1					1
25/10/23 13:01	Climbing Wall, Ascent UK	Climbing centre in Bath would be a perfect addition to the city and a real bonus for residents and students fitness, currently the nearest one is Bristol.	1							
25/10/23 13:04	Climbing Wall, Ascent UK	Bath has a large population of climbers who have long needed a local place to go. So far the closest place is Bristol meaning going often is a very expensive and time consuming affair.	1							
25/10/23 13:46	Climbing Wall, Ascent UK	There is a large climbing community in bath and we all have to go to Bristol to get our fix	1							
25/10/23 14:37	Climbing Wall, Ascent UK	It would be a great active activity for all age groups	1							
25/10/23 15:00	Climbing Wall, Ascent UK;All Weather Pitch, Bath City Football Club	Bath sorely needs a climbing wall, at the moment the only option is to travel to Bristol, which even in the car is an hour away. The football pitch for Bath City is very much needed. Odd down is the only decent 3G football pitch and for those of us on the north side of the river its very inaccessible. Bath City do so much with the community that it would be great to have a 3G.	1	1						
25/10/23 15:10	Climbing Wall, Ascent UK	Rock climbing is a sport for all ages that promotes community and exercise. While sports like football promote exercise, the main purpose of viewing a football match is to go and drink while supporting your team. A rock climbing wall in bath makes it easy for families who would like to try it out and be able to without having to travel all the way to Bristol. I believe this would help promote good health and exercise in the community.	1							
25/10/23 15:10	Climbing Wall, Ascent UK;Weston Library Improvements;All Weather Pitch, Bath City Football Club;Student Community Partnership Wardens ;Play Equipment Whiteway Green;Odd Down Sports Ground, GLL	The sports and community based projects desperately need funding, especially places like the climbing wall, which is a new business getting sorted but will offer a great new service in the city.	1	1	1	1	1	1	1	
25/10/23 16:01	Climbing Wall, Ascent UK	Bath has never had a climbing wall. It is a good, purposeful activity for all ages	1							
25/10/23 16:34	Student Community Partnership Wardens	I think the community wardens perform an essential service as a point of contact and a connection between the city and the institutions and the students. Over the years they have built up a lot of goodwill and enabled people to be better neighbours.							1	
25/10/23 16:59	The World Heritage Fund	Bath's World Heritage status attracts many visitors from the UK and overseas who contribute to the economy of the city. It is vital that the status is not threatened by uncontrolled developments.								1
25/10/23 17:12	Climbing Wall, Ascent UK	Healthy activity for all ages	1							
25/10/23 18:36	Climbing Wall, Ascent UK	It's different for Bath good for the older children	1							
25/10/23 19:06	Climbing Wall, Ascent UK;Odd Down Sports Ground, GLL	A climbing wall in bath would be a fantastic opportunity to give people indoor activities for all ages, it rains a lot and indoor space to get kids active would be brilliant!	1			1				
25/10/23 19:39	Student Community Partnership Wardens	I am aware of the SCP and the work it does to improve community cohesion. I think this project is exactly what this funding should be spent on to improve relationships between students resident in the community and other local residents.							1	
25/10/23 19:57	Climbing Wall, Ascent UK	A climbing facility in Bath is long overdue for a city the size of Bath and will be extremely popular with a range of age groups. Currently we have to commute to Bristol where there are at least 3 climbing centres. The location on Combe Down is excellent and will also be a useful resource for neighbouring schools.	1							
25/10/23 21:16	Climbing Wall, Ascent UK	Climbing is an inclusive sport that supports wellbeing and mental health as well as physical exercise.	1							
26/10/23 09:52	Climbing Wall, Ascent UK	A climbing wall would be a great community facility for Bath with positive effects on health and wellbeing - it is really odd that Bath does not have one already. The free/concession entry for disadvantaged groups is an excellent idea.	1							
26/10/23 12:26	Climbing Wall, Ascent UK	Accessible facility for everyone, development opportunities for individuals, whilst providing an exercise outlet.	1							
26/10/23 12:41	Climbing Wall, Ascent UK;All Weather Pitch, Bath City Football Club;Play Equipment Whiteway Green;Odd Down Sports Ground, GLL	Unlike heritage assets in Bath (which received over a £20 million over the last 3 years from the Heritage Lottery and emergency pandemic heritage grants) sports assets are not eligible for most external or central funding as Bath is deemed too 'wealthy'. CIL is the only statutory funding available other than philanthropic individuals or trusts supporting the vital area of public health, active lifestyles and wellbeing.	1	1		1	1			
26/10/23 13:08	Climbing Wall, Ascent UK	I want to go climbing in bath instead of going to Bristol	1							
26/10/23 13:39	Climbing Wall, Ascent UK	Climbing is an increasingly popular activity, particularly in the south west. A climbing centre in Bath would draw in more people from surrounding villages, as well as helping to bring money from the surrounding area into a poorer area of Bath. As the multiple centres that exist in Bristol have proven, climbing centres are financially sound and should offer a good return on investment, as well as benefitting the area socially and in terms of fitness and health.	1							

26/10/23 14:36	Climbing Wall, Ascent UK	Indoor rock climbing is an increasingly popular all year round activity. It can be used by different ages and sections of the community. A bit like outward bound courses it can be used to give underprivileged groups self confidence and self esteem. The nearest climbing wall is in Bristol so one in Bath would reduce the environmental impact of driving to Bristol.	1							
26/10/23 17:03	All Weather Pitch, Bath City Football Club;Play Equipment Whiteway Green;Odd Down Sports Ground, GLL	Great projects to get children active		1		1	1			
26/10/23 17:04	All Weather Pitch, Bath City Football Club;Play Equipment Whiteway Green;Odd Down Sports Ground, GLL	Best community projects on offer for children		1		1	1			
26/10/23 17:09	Climbing Wall, Ascent UK;Weston Library Improvements;All Weather Pitch, Bath City Football Club;Student Community Partnership Wardens ;Play Equipment Whiteway Green; The World Heritage Fund;Odd Down Sports Ground, GLL	I think they are all projects that deserve funding	1	1	1	1	1	1	1	1
26/10/23 22:46	Climbing Wall, Ascent UK	There are so many students in bath who love climbing and have to travel to Bristol/Chippenham which costs both time and money making it unsustainable for students, theres such a demand from both students and the public that it would easily bring in money once built and create a large community and would round off the city well	1							
26/10/23 22:48	Climbing Wall, Ascent UK	With no rock climbing options in bath, the closest are all 40+ minute drives away with heavy traffic. Not only would it reduce car pollution but with it being so close to the uni and student areas it'll be very popular.	1							
26/10/23 22:49	Climbing Wall, Ascent UK	Climbing has become a very popular sport, and given the closest wall is in Bristol this would be a great attraction to add in Bath.	1							
26/10/23 23:02	Climbing Wall, Ascent UK	The mountaineering society at the University of Bath is one of the largest societies and there is a massive demand for a climbing wall in Bath because currently students have to pay extra money to travel to Bristol/Chippenham also meaning that we cannot go as regularly.	1							
26/10/23 23:13	Climbing Wall, Ascent UK	Climbing is a sport that is gaining popularity, easier access to different varieties of sports can motivate people to exercise and tackle the problem of obesity.	1							
26/10/23 23:14	Climbing Wall, Ascent UK	This is something we lack within the community! And will allow the opportunity for the community in bath to trial a new form of physical activity which will overall benefit both physical and mental health of the community	1							
26/10/23 23:27	Climbing Wall, Ascent UK	The university of bath is renowned for its sport programmes and education, so not having a climbing wall is a disadvantage to the numerous sport science students at our university. Also as a member of their mountaineering and climbing society is expensive, inconvenient, and time consuming having to travel to Bristol and back each week. It would save a lot of people a lot of time and money if this project was funded	1							
26/10/23 23:37	Climbing Wall, Ascent UK	Helping to promote a new and emerging sport for all. Climbing helps not only with physical fitness, but mental fitness too, through its many problem solving aspects. Many residents travel to Bristol expressly for climbing once or multiple times a week, so would also makes for cleaner air	1							
27/10/23 00:03	Climbing Wall, Ascent UK	I am deafblind and a student so traveling to Bristol or Chippenham is both expensive and challenging. I am also hoping to become a first DeafBlind person to summit Everest (Instagram: @deafblindeverestproject) so a climbing wall somewhere locally would be extremely beneficial for me, as that would allow me to make most of my time and train in Bath.	1							
27/10/23 00:08	Climbing Wall, Ascent UK;The World Heritage Fund	A climbing wall would certainly provide a fun and different way to exercise and prevent travelling all the way to Bristol which is not realistically accessible via any environmentally friendly links.	1							1
27/10/23 00:09	Climbing Wall, Ascent UK	I love climbing, it's given me community as a trans and queer person in the current political climate	1							
27/10/23 00:52	Climbing Wall, Ascent UK	With so much eagerness in Bath about climbing, despite the nearest climbing wall being in Bristol, the income from a climbing wall in Bath would be substantial	1							
27/10/23 00:55	Climbing Wall, Ascent UK	Improve wellbeing and increase community spirit through an inclusive sport.	1							
27/10/23 01:41	Climbing Wall, Ascent UK	The University is extremely well known for its world class sports facilities. We should emphasise that idea by having our own climbing gym which would unite us as a school and as a team of lovers of the sport.	1							
27/10/23 05:39	Climbing Wall, Ascent UK;Weston Library Improvements;Play Equipment Whiteway Green	Libraries are free services. They are valuable spaces for people who cant afford heating either. Play equipment - anything that encourages gross motor development helps kids sit still in school and ultimately is good for writing. Risk taking in children prevents them from being perpetually scared teens. Same for a climbing wall. It will help in school and means I don't have to drive to Bristol. That saves the environment too.	1		1		1			

27/10/23 07:46	Climbing Wall, Ascent UK	A climbing wall brings the opportunity for people in Bath to find a new sport, rather than having to go over to Bristol, it's an inclusive sport that offers a lot to people who are often intimidated by gyms	1						
27/10/23 07:58	Climbing Wall, Ascent UK	There is a large climbing community in bath but at the moment all the students have to go to Bristol which is time-consuming and expensive. This is limiting climbing access.	1						
27/10/23 08:00	Climbing Wall, Ascent UK	The nearest climbing wall is in Bristol so students and locals have to travel quite far to get to it. Bath is a city so you would expect it to have a climbing centre.	1						
27/10/23 08:59	Climbing Wall, Ascent UK	The nearest climbing walls are in Bristol, Chippenham and Frome, which for a student without a car are not particularly easy to get to. There is a big climbing community in Bath and I think a climbing Centre would be extremely popular.	1						
27/10/23 09:28	Climbing Wall, Ascent UK	Closest is Bristol, would stop valuable business leaving Bath, would be a great addition to community.	1						
27/10/23 09:51	Climbing Wall, Ascent UK	Climbing is a fantastic and different way to get people out. It is a new and up and coming sport that can improve peoples mental health and well-being by challenging themselves to try something new and different.	1						
27/10/23 10:00	Climbing Wall, Ascent UK	This is a great project - there is an existing climbing community in bath that would hugely benefit from the centre and it would be a great opportunity to introduce people to the sport; its hugely accessible to beginners and has great mental and physical benefits.	1						
27/10/23 10:43	Climbing Wall, Ascent UK;Weston Library Improvements; Student Community Partnership Wardens ;Play Equipment Whiteway Green	Greatest community benefit.	1		1		1	1	
27/10/23 10:59	Climbing Wall, Ascent UK	Because climbing is an inaccessible for students that go to Bath University as they have to pay to travel to Bristol and get a membership there which is very expensive.	1						
27/10/23 11:14	Climbing Wall, Ascent UK	There is a big climbing community in bath that would really benefit from having resources available locally instead of having to travel to Bristol	1						
27/10/23 11:46	Climbing Wall, Ascent UK;All Weather Pitch, Bath City Football Club;Play Equipment Whiteway Green	Will be a boost for children and families living in Twerton.	1	1			1		
27/10/23 11:58	All Weather Pitch, Bath City Football Club	Twerton needs some development of this kind, the community would benefit considerably through it's use as part of youth and community development work and help build a better future for the young people of this area. It would also bring life to an area that feels largely forgotten and run down and would provide something that would be accessible for so many in the Bath area and beyond due to a great accessible locality.		1					
27/10/23 12:02	All Weather Pitch, Bath City Football Club	Would be a great benefit to a hugely deprived area of Bath, would benefit local residents and schools, Bath City really support the local infant school and the benefits to children would be massive		1					
27/10/23 12:27	Climbing Wall, Ascent UK	Climbing is great, anyone can do it at any age and there currently are not any climbing gyms in bath so it would be a perfect project to support	1						
27/10/23 12:37	All Weather Pitch, Bath City Football Club	A fantastic resource for the local community.		1					
27/10/23 13:43	Climbing Wall, Ascent UK	Climbing in Bath - much needed!!!	1						
27/10/23 14:00	Climbing Wall, Ascent UK	Having a climbing station in bath would allow me to climb without having to travel to Bristol	1						
27/10/23 14:08	Climbing Wall, Ascent UK;All Weather Pitch, Bath City Football Club	Both significantly increase the access of local people to high quality sports facilities, build community and offer rejuvenation or improvement to existing sites. So much of the building in Bath adds housing with no community space. These proposal's will help restore some.	1	1					
27/10/23 14:11	Climbing Wall, Ascent UK;All Weather Pitch, Bath City Football Club;Play Equipment Whiteway Green	I think they meet a need which is not presently being met, create more opportunities to make and strengthen community and provide both physical and mental health benefits	1	1			1		
27/10/23 14:13	All Weather Pitch, Bath City Football Club	Huge benefit to local residents, particularly young people and the wider community. This type of facility will encourage positive links in the local community!		1					
27/10/23 14:19	All Weather Pitch, Bath City Football Club	It would be so beneficial for the whole community. I work in a very local school and know how much this would mean to our children, their families and wider community. They have fewer opportunities and access to resources than children in other parts of Bath. Bath City support our school and give us their time so I have no doubt they will use this resource to benefit all		1					
27/10/23 14:22	All Weather Pitch, Bath City Football Club	The football club are very family & school orientated with lots of hands on involving local schools when possible. Bath City deserve funding support to keep these projects & family together time to a higher standard especially through difficult times.		1					
27/10/23 14:53	All Weather Pitch, Bath City Football Club	Not only will it benefit both the ladies and mens football teams it will benefit groups and schools in the local area..		1					

27/10/23 15:01	Climbing Wall, Ascent UK	There is huge climbing community in Bath so who currently take themselves to Bristol or Frome to take part in the sport. This would not only benefit the local climbers but also give access to school children / anyone who has not yet taken part in the sport who otherwise would not. I personally spend around £10-30 per week to climb + travel costs. Bath would benefit greatly and could encourage people to move here who otherwise may favour Bristol.	1							
27/10/23 15:01	Student Community Partnership Wardens	The SCP Community Warden scheme is an great project which improves the lived environment for long & short term residents such as students in parts of Bath which are impacted both positively & negatively by high concentrations of HMOs. Long term residents benefit from improved maintenance, care & attention to gardens, storage of waste/recycling bins, tackling of loud late night noise parties. With students receiving support on how to deal with poor landlords and help to improve HMO standards.							1	
27/10/23 15:04	All Weather Pitch, Bath City Football Club	The potential benefits for schools, local charities and the community of having a state of the art, all weather sports facility are huge and could have a significant impact on the mental and physical well-being of those able to access it.		1						
27/10/23 15:20	The World Heritage Fund	The city needs all the funding it can get to preserve its unique qualities.								1
27/10/23 15:33	Climbing Wall, Ascent UK	So people have a chance to climb	1							
27/10/23 15:37	All Weather Pitch, Bath City Football Club	Whilst Bath is traditionally perceived as a wealthy city, Bath City FC is working within a community which has one of the highest levels of deprivation in the UK. The Bath City Foundation is working hard to provide football for young girls and other groups, such as Men's walking football, to combat issues such as loneliness, depression and better health outcomes in an area that experiences health inequalities. An all weather pitch will enable this work to expand without limitation.		1						
27/10/23 16:06	Climbing Wall, Ascent UK	Theres a growing community of climbers who live in Bath who either have to travel to Bristol or to Frome to climb as Bath doe not have its own climbing gym. The addition of a climbing gym in Bath would be fantastic as it would reduce travel costs & environmental impact from travelling. It would also improve the wellness - both physically and mentally - of Bath residents who climb or are interested in climbing.	1							
27/10/23 16:18	All Weather Pitch, Bath City Football Club	It will benefit the local children and the community as a whole.		1						
27/10/23 16:19	Climbing Wall, Ascent UK	Climbing is a major sport that has no presence in Bath. As a Uni of Bath student I can confirm there would be many students excited to climb at this wall if it opened.	1							
27/10/23 17:01	Climbing Wall, Ascent UK	Bath needs a climbing wall and an Aldi supermarket!	1							
27/10/23 17:03	Climbing Wall, Ascent UK	The Ascent Climbing centre wants to make climbing accessible to all and would be a really valuable addition to the community as Bath's only climbing wall, giving residents the opportunity to climb without having to travel as far as Bristol or Frome.	1							
27/10/23 17:42	All Weather Pitch, Bath City Football Club	More opportunities for young children		1						
27/10/23 17:50	Climbing Wall, Ascent UK	As a long term Bath resident (25yrs) it has always been disappointing how limited the options are for physical activities here. Climbing, and bouldering in particular is a highly accessible sport - requiring only special shoes (hireable) to start. I've climbed previously in Bristol, where the popularity of the sport has supported expansion from a single climbing centre in the 90s, to now multiple centres there. These are however not conveniently accessed from Bath for regular visits.	1							
27/10/23 18:23	Climbing Wall, Ascent UK	This project is perfect for the younger members of the area (uni students and younger) to enjoy social times out and distraction from their degrees which is highly beneficial.	1							
27/10/23 20:33	Climbing Wall, Ascent UK	I am a student at the University of Bath and part of the climbing and mountaineering society. I absolutely love the sport of climbing (bouldering mostly) and would be ecstatic to have a wall nearer than Bristol . I think the wall would be fantastic social and fitness hub for many more university students to get involved with. As well as young people and kids in Bath.	1							
27/10/23 20:38	Climbing Wall, Ascent UK	Opportunity for Sport and Exercise	1							
27/10/23 20:41	Climbing Wall, Ascent UK	As closest wall is in Bristol, which is costly and far for people to travel to	1							
27/10/23 20:41	Climbing Wall, Ascent UK	I love climbing, climbing is my life, I need more climbing	1							
27/10/23 20:42	Climbing Wall, Ascent UK	CLIMBING IS MY FAVOURITE!!! I do not want, I NEED a climbing wall in Bath to help me gain finger strength and mental fortitude. Im begging you dont rob my dream.	1							
27/10/23 20:43	Climbing Wall, Ascent UK	there is no climbing wall anywhere near bath and its such a good sport	1							
27/10/23 21:24	Climbing Wall, Ascent UK	Bath is desperately in need of its own climbing facilities. This would be a great new addition for children, students and adults alike, who at the moment must travel well outside Bath to climb.	1							
27/10/23 21:42	Climbing Wall, Ascent UK	I think the climbing wall would encourage more people to get involved in the activity	1							
28/10/23 03:39	Climbing Wall, Ascent UK	For easier access	1							
28/10/23 05:39	All Weather Pitch, Bath City Football Club	They have supported our local primary school and continue to do so, they let us use their facilities. If they had an all weather pitch we could get so much more out of it. The children love going down to the ground and enjoy being on the pitch.		1						

28/10/23 09:17	Climbing Wall, Ascent UK	We desperately need a climbing wall in Bath for the mountaineering club, it will be essential for our progress in training and key for BUCS competitions	1						
28/10/23 09:34	All Weather Pitch, Bath City Football Club;Odd Down Sports Ground, GLL	As Baths main football club in the heart of one of the most underprivileged parts of Bath, improving the facilities at Bath City should be a major priority to help provide access and opportunity to young people in the vicinity and act as a catalyst / ripple effect to support regeneration locally. With the investment at Odd Down previously already being recognised and valued by Bath community, further investment to extend facilities including Padel can only be good for health & wellbeing		1		1			
28/10/23 09:58	Climbing Wall, Ascent UK;All Weather Pitch, Bath City Football Club;Odd Down Sports Ground, GLL	Climbing wall - fantastic opportunity for local and wider community to be involved with a fantastic sport/activity. No other project like it in the area. All weather pitch Bath City - Increasing the profile of our local football club with adults and children, particularly with the work that the foundation are doing with girls football. Odd Down - Already a well utilised and fantastic facility. Extra funding will only increase those benefits and exposure to the local community.	1	1		1			
28/10/23 20:32	Climbing Wall, Ascent UK	It is an enriching, fun and inclusive activity that is badly missing in Bath and will appeal to all the family	1						
28/10/23 20:56	Climbing Wall, Ascent UK;All Weather Pitch, Bath City Football Club	As a world renowned city we are seriously lacking in sporting facilities, especially those that offer access to alternative sports e.g climbing, Bristol has over 5 climbing centres Bath should support what is a very popular sport. Converting Twerton park to a 3G pitch also offers year round opportunity for grass roots clubs to train at a the facility which in turn supports baths football club.	1	1					
28/10/23 20:58	Climbing Wall, Ascent UK	Investment in a new climbing centre within Bath would bring a sport to the city that isn't currently accessible without travelling to Bristol or Chippenham. Me and my family would use this climbing centre regularly as well as proving jobs for young people as climbing instructors.	1						
28/10/23 23:04	All Weather Pitch, Bath City Football Club;Play Equipment Whiteway Green;Odd Down Sports Ground, GLL	These projects are worthy of tax payers money. None of the others on the list		1		1	1		
28/10/23 23:26	Climbing Wall, Ascent UK	I am a Uni student at Bath and a keen climber. Every time I climb I have to pay £6.10 for a return ticket to Bristol which is an extra cost of not only money but also time. I know that the sacrifice is worth it, but many wouldn't consider going out to Bristol just to try climbing. Not only will it make it more affordable for people to start climbing, but the sport in general would build a great community and would keep more people fit, happy and healthy in a new way previously unavailable in Bath	1						
28/10/23 23:29	Climbing Wall, Ascent UK	Climbing helps bring together different communities. Currently, the closest centres are in Frome or Bristol, which are quite expensive to get to as you have to drive or pay for train tickets. Having a centre will improve accessibility, helping cater to a diverse audience and encouraging more female and queer people to get involved. Climbing is also sport that can be really easily adapted to suit disabled people. Also a good training facility for the uni teams.	1						
28/10/23 23:29	Climbing Wall, Ascent UK	There are several climbing walls in Bristol but none in Bath despite a large amount of climbers in Bath who have to travel to use the Bristol centres	1						
28/10/23 23:42	Climbing Wall, Ascent UK;Student Community Partnership Wardens ;The World Heritage Fund	Climbing is an extremely healthy and enjoyable sport, as it currently stands it is incredibly difficult and expensive for Bath residents to do.	1					1	1
29/10/23 01:57	Climbing Wall, Ascent UK	I think ascent uk would be the perfect new addition to Bath. Climbing is a great way to keep fit and healthy while also allowing you to socialise with others. Having a climbing gym in Bath would mean climbing is more accessible since the only other option for climbing is Bristol, which is quite a commitment when you consider travel time and cost. Personally, climbing has given me so many rewarding opportunities and lasting memories which I would like others to experience for themselves.	1						
29/10/23 01:02	Climbing Wall, Ascent UK	The climbing wall project in Bath deserves funding for several reasons. First, it promotes physical fitness and a healthy lifestyle, addressing a growing concern of sedentary lifestyles and associated health issues. It offers an accessible avenue for people of all ages to engage in regular exercise, improving their overall well-being. Moreover, this project can become a hub for the local community, fostering social connections and a sense of belonging.	1						
29/10/23 08:20	Climbing Wall, Ascent UK	There are no climbing facilities in Bath. If I want to climb I have to go to Bristol.	1						
29/10/23 08:43	Climbing Wall, Ascent UK	Great all round exercise for all levels of fitness, climbing Centres build fantastic and supportive environments and communities bringing people together. Support mental and physical health Thanks	1						

29/10/23 09:33	Climbing Wall, Ascent UK	I am a childrens therapist and working with clients with mental health difficulties from 3-16 years old. Having a facility in Bath like Ascent would benefit children who are suffering trauma, loss, anxiety, school refusal, adoption, ASD, ADHD. Ascent could provide the local authority a space for young people to face challenges, to emotionally regulate, to process their fear stress and trauma in a supportive environment while building trusting relationships with adults and other young people.	1						
29/10/23 10:02	Climbing Wall, Ascent UK	It would benefit the climbing community greatly and make it more accessible, thus increasing the health and wellbeing of people in bath	1						
29/10/23 10:17	The World Heritage Fund	The important work of the WHSEWF must continue.							1
29/10/23 10:24	Climbing Wall, Ascent UK	There are no nearby similar facilities and this wall would give access to the sport for many locals new to the sport as well as reduce the need for existing climbers to travel to Bristol or Chippenham.	1						
29/10/23 10:29	Climbing Wall, Ascent UK	Climbing is excellent all round core fitness and is great for mental health. Having a local climbing wall will make it much more affordable for local people.	1						
29/10/23 10:41	Climbing Wall, Ascent UK	Climbing is a fantastic sport, one that is ever growing in popularity. Existing climbers in Bath have to travel to Bristol to climb, for they have 5-6 climbing facilities already. Having a climbing facility in Bath would help the climbing community here connect with one another, encourage better overall fitness within the city and encourage more travel to Bath from people in the surrounding area.	1						
29/10/23 13:52	Climbing Wall, Ascent UK	Climbing is a great sport and it is noticeable that bath does not have a dedicated climbing centre unlike Bristol and Chippenham!	1						
29/10/23 14:00	Climbing Wall, Ascent UK	Climber in Bath are sadly missing a local facility for this active sport, meaning travel to Bristol. This means that new joiners to the sport have a geographic challenge to access, as well as the sport spending leaving the area	1						
29/10/23 14:27	Climbing Wall, Ascent UK	climbing is growing in popularity a lot the last few years and you don't need any equipment like ropes to go bouldering, it's a great and unique sport that's fun to try so it'll be a great addition to have a climbing gym in Bath	1						
29/10/23 15:14	Climbing Wall, Ascent UK	Keeping young people active is important to health and well-being. Climbing is a good, inclusive activity which does not require special equipment or skill to be able to access as a beginner. There is no climbing wall in Bath, and the nearest bouldering/climbing wall is in Bristol or Frome.	1						
29/10/23 15:26	Climbing Wall, Ascent UK;Weston Library Improvements;Play Equipment Whiteway Green;Odd Down Sports Ground, GLL	Climbing wall will provide something different for the city and when its been heard about before a lot of interest from my friends and family in the area	1		1	1	1		
29/10/23 16:00	Climbing Wall, Ascent UK	Bath has nothing else like this and would be great for young and old to have somewhere nearer to home, rather than having to travel to Frome or Chippenham to use a climbing wall. It would also create new experiences.	1						
29/10/23 19:38	Climbing Wall, Ascent UK	Plenty of climbers in Bath. Travelling to and from Bristol or Frome several times per week leading to many hours in the car and many pounds on petrol. Another link between the uni and the community is an additional benefit.	1						
29/10/23 21:37	Climbing Wall, Ascent UK	Theres no climbing wall in Bath currently. So many climbers across Bath and nearby would appreciate not having to travel all the way to Bristol every time to go for a climb.	1						
29/10/23 21:38	Climbing Wall, Ascent UK	Climbing is something that has grown in popularity and has a wide range of benefits not just physically and mentally. It explores unique movements physically, and the nature of it inspires people to go adventure outside and beyond, which is key in our current world. It is a great way to get people active and feeling better. The nearest centres are in Bristol and Chippenham which are not the easiest to access (at least 1h journey by public transport)	1						
29/10/23 21:40	Climbing Wall, Ascent UK	There is no climbing wall in bath and the uni mountaineering club has been so keen for one for a long time. There is a community of 50 people that go multiple times a week, and that is just within the university. The local climbing centres are always really busy so it would be well used and a great thing for local young people to do	1						
29/10/23 21:44	Climbing Wall, Ascent UK	Valuable space to take part in exercise that is enjoyable and encourages people to get fit	1						
29/10/23 21:44	Climbing Wall, Ascent UK	It would be great for community activities for all ages	1						
29/10/23 22:07	Climbing Wall, Ascent UK	Climbing is a friendly inclusive sport which I have been partaking in for years. Unfortunately when I moved to Bath as a student there was (and still is) no climbing wall. The benefit of having a wall in Bath and not having to travel to Bristol makes the sport more inclusive and accessible. If I had not started climbing I wouldn't have had so many amazing experiences and friends. I hope a wall in bath will help others experience what I have been able to.	1						
29/10/23 22:58	Climbing Wall, Ascent UK	Theres no climbing wall in Bath and the nearest one is in Bristol. This makes climbing less accessible as public transport links are expensive and driving is not eco friendly. Climbing is an up and coming sport and bouldering is easy to get into if there is a bouldering wall nearby. There has been talks of getting a climbing wall in Bath for years and theres is growing interest especially since climbing was added to the most recent Olympics.	1						

30/10/23 09:00	Climbing Wall, Ascent UK	because there is no climbing wall in Bath and it's a great skill to learn	1						
30/10/23 09:11	Climbing Wall, Ascent UK	There is no climbing centre currently located in Bath. As a growing sport it would be a great addition to enhance the sporting facilities in the city. The location at Sulis would be great as it is located closely to Wessex Water's office, and the university - meaning it will attract a significant number of climbers (both students and professionals)	1						
30/10/23 09:20	The World Heritage Fund	The Enhancement Fund is a small, but important contributor to delivering improvements to Baths public realm and historic fabric. The upkeep of this infrastructure has multiple benefits, encouraging local people to enjoy their cultural surroundings on foot; help the city best present itself and in doing so continue to attract visitors and investment. The Enhancement Fund is an efficient way of delivering small scale improvements and has a good track record of success.							1
30/10/23 09:42	Climbing Wall, Ascent UK	There is no climbing wall in bath. It is a hobby of many bath students. Instead of making the journey to Bristol we would be able to spend the money to climb in bath.	1						
30/10/23 10:24	Climbing Wall, Ascent UK;Weston Library Improvements	As far as I know there isn't a climbing wall in Bath, with perhaps the nearest one being in Frome. I'm sure it'll be very popular and improve the health of Bathonian's.	1		1				
30/10/23 10:40	Climbing Wall, Ascent UK;Odd Down Sports Ground, GLL	Climbing and Padel Tennis are two of the most accessible sports that encourage people of all ages to get involved in activity and sports participation. Climbing is particularly attractive to the younger generation and Padel Tennis appeals to all generations and is far easier to play than more active sports.	1			1			
30/10/23 12:36	Climbing Wall, Ascent UK;Weston Library Improvements; Student Community Partnership Wardens	I think there is a big need for a climbing wall, climbing is a sport that encourages exercise but at the same time feels like a fun activity meaning you dont feel the same pressures as you would working out in the gym. The closest climbing places to bath are Bristol or Frome which is too far, and takes too long to get to. A climbing wall in bath would solve this problem and also make the area more appealing as it widens the scope of activity some can do in bath	1		1				1
30/10/23 13:17	Climbing Wall, Ascent UK	The project should receive funding as it will be first of its kind in Bath. Ascent works with many charities to ensure everyone is able to enjoy this facility including bouldering for disadvantage children, adults and those with special needs. All abilities will benefit from beginners to the more experienced climbers. It will help with wellbeing, problem solving and concentration. The venue will also help with the regeneration of the Sulis club that has not been used for many years.	1						
30/10/23 13:35	Climbing Wall, Ascent UK	Climbing is an ever expanding and popular sport. Bath is currently situated in a sport with no current climbing walls so will be the sole wall in the area. Funding will help get Thai project off the ground and give them the beat start if offer state of art facilities that will benefit the community.	1						
30/10/23 14:16	Climbing Wall, Ascent UK	This is a unique facility and will add to the type of activity myself and my family could enjoy. We are trying to encourage all forms of physical exercise and find this difficult in the city centre due to a lack of safe cycling provision and the expense of other suitable leisure activities. I work at Wessex Water and therefore it would be cost effective and environmental friendly to use the bus service to access the facility and I know the facility will be very popular with colleagues as well.	1						
30/10/23 14:26	Climbing Wall, Ascent UK	climbing is such an accessible sport for so many people and having this facility will be amazing for bath	1						
30/10/23 15:37	Climbing Wall, Ascent UK	Climbing is an excellent sport for all individuals, especially children and having a wall in or very close to Bath will be fantastic for families to use as a means to keep fit and be sociable.	1						
30/10/23 15:56	Climbing Wall, Ascent UK	Climbing is an incredibly inclusive. The various climbing centres in the uk that i have been a member at during different times, have enabled me to become part of a community of people from all generations, experience levels and backgrounds, and helped me to settle into new areas more easily	1						
30/10/23 16:08	Climbing Wall, Ascent UK	Climbing is an amazing sport that brings together and creates a community and is can be done by people of all ability	1						
30/10/23 16:30	Climbing Wall, Ascent UK	A-lot of people in bath have to go out of bath to climb or boulder.	1						
30/10/23 16:38	Climbing Wall, Ascent UK	It would be so nic, a lot of people are dreaming of this and its complicated to travel to Bristol to go and climb	1						
29.10.23	All Weather Pitch, Bath City Football Club	I refer to the allocation of Community Funds and would like to nominate Bath City Football Club. A 4G FIFA-quality all weather pitch would mean it could be used seven days a week. It is used for holiday clubs which gives children an outlet for their energies. With the constant wet weather we have been having if the pitch was waterlogged they would not be able to play but with a 4G pitch play could go ahead. The pitch is in a good area as many children will live locally and be able to walk and those who do not can easily be dropped as there are good parking facilities. It would also mean matches would not be called off last minute as happens now with the natural pitch			1				
31.10.23	Climbing Wall, Ascent UK	My family and I are hugely in support of this proposal. Climbing is a wonderful hobby and our children 13,11, 5 and 2yrs love it as do we. We would do it more often if we didn't have to travel to Bristol or Chippenham in order to do it. Great for both physical and mental health and something for all ages. Please facilitate this for Bath.	1						
20.10.23	Weston Library Improvements	Please support and approve the application from Weston Community Library.				1			

21.10.23	Weston Library Improvements	As a resident of Church Road, Weston & a library volunteer, I am writing to support the funding application submitted by Love Weston Library to obtain a 10 year lease & cover refurbishment of the library. The library is a very valuable resource & service for the people of Weston, of any age & should be encouraged & supported as best we can.			1				
25.10.23	Weston Library Improvements	The Trustees of Weston Community library have made an application to B&NES for CIL funding to secure the future of Love Weston Library by allowing us to negotiate a 10 year lease with our landlord (Weston Working Men's Club) and to cover future refurbishment of the library. Weston Community Library is an essential service to many older and younger people in Weston and Newbridge parishes. I full support this application by the Trustees of the Library. Please add our names to those supporting the application.			1				
25.10.23	Weston Library Improvements	I am writing to ask you to please consider granting CIL funding to Love Weston Library in order to keep this very valued asset in Weston Village. Having a library locally means that Weston residents have access to a wide range of books to borrow free of charge without having to travel into the centre of Bath. This is especially appreciated by older residents like myself, because although I am able to walk or catch the bus free of charge, books can be heavy to carry and also not everyone enjoys the same level of mobility. It also means that no matter which part of Weston you live in the library is within walking distance for many. Love Weston Library is also frequently used by many families and young readers, which encourages a reading habit for future generations as a free service it is accessible to all regardless of economic status. I feel very passionately about this because as a child my family did not have the money to buy books and my local library meant that I had access to reading and learning. My brother and I were the first generation of University graduates in our family and I remain convinced that free access to books assisted me then, as well as continuing to give me pleasure. The library also caters for younger children by having visits from the local pre-school for stories and for Mary's Storytime weekly for the under fives. Without a secure tenancy we in Weston are at risk of losing a valuable facility. When the library had to close due to removal of Council funding it was greatly missed. The volunteers are a dedicated, cheerful team of people who give their time to keep this wonderful service going for Weston residents. Please support this application with funding.			1				
26.10.23	Climbing Wall, Ascent UK	I was very interested to read about the Ascent application. I write for two reasons. Firstly, I had left some comments, but owing to the 500 character limit, had to strip back my feedback. I wanted to share the full version, in case helpful: As a local resident, there appears to be many good reasons to support this initiative: •Health benefits: Strong evidence base of demonstrable physical and mental wellness impact offered by climbing, which can deliver preventative effect on the well-documented rise in occurrence of these problems, and their resultant impact, including monetary cost of remedial healthcare, social and education problems. •Social benefits: As a health-oriented community hub, attractive and accessible to all in the community (regardless of income, age, ability, ethnicity) to promote cohesion. Support to high-need groups, such as the disadvantaged/underprivileged, children, youth, disabled etc - through a pursuit which is evidenced to be very safe. This will offer an effective counter-balance to issues related to community disorganisation, inequality and divergence in Bath •Cross-cutting benefits and leverage: (local-economic, educational, altruistic), including cooperative relationships with local business, educational institutions and charities; and providing a platform for volunteerism – meaning the impact of the initiative can have much wider reach. •Measurable environmental impact, related to greenspace access and transport. •Demonstrable demand (open-source stats on UK climbing, and preliminary research by Ascent team) for one of the fastest growing UK sports, that is currently under-resourced in the Bath area. •A safe investment that can deliver immediate community benefit. In my line of work, I also read a lot of funding applications, and to me the organisation appears capable and proficient, owing to the strength of their business case. This should offer the council some degree of confidence about the commitment of the organisation, and therefore the likelihood that it will achieve its desired community impact. Secondly, my family, friends and I would be very keen to see Ascent go ahead, and I wanted to offer support to the Ascent team. If there is any way we can help (personally, through voluntary work) or professionally, I would be glad to. Do you know if there is a way I might be able to contact the Ascent team?		1					

26.10.23	Weston Library Improvements	I wish to show my support for the Trustees of Weston Community Library for funding to secure the future of Weston Library. It is very important to be able to keep the library open for the residents of Weston, and the funding will help to make sure that this is accomplished. I hope you will look on the application with favour as I believe it is a service that is of great benefit to the local residents.			1					
26.10.23	Weston Library Improvements	Weston village library could really do with some funds. The whole village needs funds to improve facilities and the high street			1					
31.10.23	Climbing Wall, Ascent UK	Id love a climbing wall in bath, Please let me know how I can show my support.	1							
31.10.23	Climbing Wall, Ascent UK	I am in full support of a community climbing wall in Bath. It is a brilliant resource especially for older children and teens who can actively engage in sessions, learn a new skill, have an outlet for emotional and physical development and social interaction. It's a great initiative and I hope you get the community behind you to support the project. We have shared the link at The Paragon School.	1							
31.10.23	Climbing Wall, Ascent UK	As a mother of two young children who love climbing, I'd like to express my support of the application from Ascent UK for grant funding to build a climbing wall in Bath. Given that the nearest climbing wall is a significant drive away in Bristol it is an activity that we are unable to do very often. It supports physical and mental well-being and is an inclusive multi-generational activity.	1							
31.10.23	Climbing Wall, Ascent UK	Hi there I think the climbing facility in bath would be a fantastic investment for children	1							
31.10.23	Climbing Wall, Ascent UK	I am writing to support Ascent UK's bid for CIL funding for the construction of a climbing wall in Bath. Climbing is hugely beneficial for children and adults alike, for both physical and mental health, and the absence of any facilities here in Bath is a glaring omission, forcing people to travel to Bristol or Chippenham (with the attendant pollution) if they wish to climb.	1							
31.10.23	Climbing Wall, Ascent UK	Funding for any outdoor activity is amazing to keep kids active, safe and outdoors (off screens). I just want to whole heartedly pledge my whole Families support for this scheme to go ahead.	1							
31.10.23	Climbing Wall, Ascent UK	This email is to express my support for the potential new climbing wall at the Sulis sports club. This would be a fantastic initiative for families and active people in Bath.	1							
31.10.23	Climbing Wall, Ascent UK	I am writing to support the construction of a climbing wall in Claverton Down with CIL funding. I have two boys 6 and 8 and we live in Combe Down. If we want to go climbing we currently have to drive to Frome or Bristol.	1							
31.10.23	Climbing Wall, Ascent UK	We are a family of 5 and have been used to a climbing wall when we lived in London. We would love a wall in Bath and would be very keen users Please please let's make this happen	1							
31.10.23	Climbing Wall, Ascent UK	I'm emailing in support of the proposal for Ascent UK to construct a climbing (bouldering) wall within the pre-existing Sulis sports club, located in Claverton Down. Both my son and myself are keen climbers and would love a facility like this that is within a more reachable distance from home. Exciting.	1							
31.10.23	Climbing Wall, Ascent UK	I am writing to share The Paragon School's (And Prior Park Schools Trust) strong support for the proposed climbing wall as proposed by Ascent UK. The proposal sheds light on the very real and positive demand for such a facility within the B&NES which adds diversity to the active leisure mix in the local area. The proposal's ambitions to harness the currently under utilised facility on Claverton Down Road would also breathe new life into that currently rather neglected facility for the benefit for the local community as wider residents of B&NES. Anecdotally, my own son loves climbing & bouldering, and the community which exists around it but currently has to travel to Frome Boulder Rooms in order to participate; which is a significant barrier to overcome. I know that many of his friends are similarly enthused but frustrated by the lack of a local amenity which this proposal would provide.	1							
31.10.23	Climbing Wall, Ascent UK	I have seen the proposals for the new bouldering centre in Bath. I would like to enthusiastically support this! We travel to the Frome Bouldering Centre regularly. It is a great activity for our family. Bath needs more indoor community based activities for all ages. I have no doubt it would be a success and asset to the community.	1							
31.10.23	Climbing Wall, Ascent UK	Please please please can BANES support the proposed Ascent climbing wall. This would be used and loved by my entire family including my three daughters.	1							

31.10.23	Climbing Wall, Ascent UK	<p>I understand there was a recent consultation with regard to the above project, which unfortunately I didn't take part in due to travel plans, however I have long noticed the disused site in Combe Down and as my child attends Ralph Allan School next door, I have often thought that this site could be used for something that would benefit the local community rather than left empty.</p> <p>Therefore I'd like to signal my strong support for the plans to create a climbing wall at the site. This would allow families to spend time together and offer a place for young people to spend time safely outside of school hours, and exercise whilst having fun particularly in the winter when weather is bad. There is a huge demand for this sort of facility and I am sure many parents and young people locally would also support these proposals. A cafe and arts centre/artists studios on the site would also be amazing. There are disused outdoor sports facilities (football and tennis courts) at the back that also could be utilised and available for hire and community use which would be great as the University facilities are often very over subscribed.</p> <p>It is a great idea and hope that the bid can progress.</p>	1						
31.10.23	Climbing Wall, Ascent UK	<p>My family would love a climbing wall in Bath. It's a perfect activity for young children and adults. We currently travel to Bristol and Radstock to climb with some of my children's friends, but it is difficult to do that during the week and so a local wall would be great.</p>	1						
31.10.23	Climbing Wall, Ascent UK	<p>We wish to support the inclusion of a climbing / bouldering wall at the leisure centre. Our kids love climbing and we have often wished there was a facility in Bath</p>	1						
31.10.23	Climbing Wall, Ascent UK	<p>Just seen this posted on a parents WhatsApp and wanted to drop a quick line to strongly support a proposal to bring bouldering facilities to Bath. We've been keen climbers and keen to let our daughter try it, but having to trek to Bristol to reach appropriate facilities significantly limits opportunities to do so. Having a facility in Bath would be a huge boost for not just children but also many other demographics who may not have time to get to Bristol to enjoy the sport!</p>	1						
31.10.23	Climbing Wall, Ascent UK	<p>This is quick note to express my wholehearted support for the proposed bouldering wall in Bath. As a parent of three kids age 10, 14 and 15, this is just the kind of activity that keeps them stimulated, both mentally and physically, and out of trouble. It's also one of the only things where adults can participate alongside kids as equals. At the moment we have to drive to the wonderful bouldering centre in Frome, but this is obviously very dependent on availability of lifts, time and money. My teens complain that all the activities in Bath are for tourists not residents. There's a real opportunity to create something valuable here for both visitors and the local community, and the location, so close to Ralph Allen, Monkton and Prior Park schools as well as the University, makes it ideal.</p>	1						
31.10.23	Climbing Wall, Ascent UK	<p>I would like to add my support to the grant application for Ascent UK.</p> <p>My son, and many of his friends, who love climbing and bouldering, have to travel to Chippenham or Bristol, to pursue this fantastic hobby.</p> <p>The Sulis centre would be a great location, especially as it is geographically close to many primary and senior schools, thus allowing local schools to walk to and participate in this year round Olympic sport, even in the middle of a wet Bath winter!</p> <p>It would also be great to have a café within this space, that parents can relax in, whilst their children are engaging in this activity. The café at The Arc Climbing Centre, in Chippenham, is very well utilised by the whole community, whenever I have visited.</p> <p>Climbing is a fantastic inclusive sport for many children and young adults. One of my children has SEN and is in receipt of an EHCP. As a family, we know many children with SEN, and a lot of them really enjoy climbing IF they have access to it. Many children with SEN, can struggle with the traditional team sports taught in schools. Climbing is fantastic for improving core strength, coordination, balance, resilience and confidence and we have found the climbing community very welcoming and accepting of differences.</p> <p>Reading through "Ascent UK's" grant application, it was pleasing to see what great links they have already forged with many local highly respected youth charities, and are actively looking at ways to enable children and young people within our local community who are vulnerable and/or have a disability, to engage in the sport of climbing.</p> <p>Please support Ascent UK's grant funding application.</p> <p>Disclosures - None to declare</p>	1						
31.10.23	Climbing Wall, Ascent UK	<p>I understand you are the person to contact regarding the construction of a climbing at Sulis sports club.</p> <p>We are strong supporters, both my children and myself travel to Bristol reasonably frequently to climb. If we had a centre in Bath we would use this almost weekly and have no doubt many school friends would join. Certainly birthday parties and other events would be a huge hit. I have no doubt it would be a success and would be really strong and positive for Bath to give children another way of exercising. The trampoline park has been such a success. Please make this happen if you are able to.</p>	1						

01.11.23	Climbing Wall, Ascent UK	<p>I understand that Ascent UK have applied to BANES for CIL funding to help the creation of a climbing (bouldering) wall at the Sulis Club in Claverton Down.</p> <p>I just wanted to lend my support to this fantastic initiative. Climbing is such a popular sport and I know of the benefits and advantages that would be gained by children of all backgrounds and abilities if this application was successful. Bath is lacking such a site and, with climbing now an Olympic sport, I am sure it would be a well-used and inclusive amenity.</p> <p>Please don't hesitate to contact me if you have any queries or require further information.</p>	1
