

# Partnership Board for Health and Wellbeing Report

Date: 16 November 2011

Report Title: Adult Health & Social Care Commissioning Performance

List of attachments to this report: Summary Report and Scorecards

---

## Summary

### Purpose

- 1 To provide the Board with a summary of information on current commissioning performance within Adult Health and Social Care and Housing.

### Recommendation

- 2 The Partnership Board for Health and Wellbeing is asked to note the performance as described in the report.

### Rationale

- 3 The Partnership Board oversees the activities of the integrated commissioning functions and its members need to be aware of performance to enable the role of the Board to be delivered and to intervene where necessary to address performance issues.

The attachments consist of the high level summary of performance and scorecards which have been extracted from the more detailed performance assurance report produced for the Clinical Commissioning Group and PCT Board in October 2011. The detailed sections of the report can be found at the hyperlink below.

Performance reporting arrangements continue to evolve in light of changes to the Health and Wellbeing Board, PCT cluster arrangements and development of the Clinical Commissioning Committee and People and Communities Department.

The intention is to allow the Board to continue to remain informed and assured that performance is being appropriately managed, with a 'lighter-touch' reporting arrangement than previously. Feedback would be welcomed.

### Other Options Considered

- 4 Not applicable to this report

### Financial Implications

- 5 None directly relating to this report

### Risk Management

- 6 Any areas of risk are highlighted in the full report

### Equality issues

- 7 Any equality issues are addressed in the full report.

### Legal Issues

- 8 None identified

### Engagement & Involvement

- 8 As set out in the body of the full report.
